THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

Sept. 16, 1966

Summer Grads

Eighteen Associate Degrees were granted during this summer and certificates were awarded to an additional sixteen students. Those completing their work during the summer are as follows:

ASSOCIATE DEGREES

Thomas R. Caldwell	Eng. Comp. Science
Rodney C. Erdman	Bus. Comp. Science
Dick J. Gatesman	Eng. Comp. Science
James A. Gauntner	Eng. Comp. Science
David E. Kite	Bus. Administration
Larry L. Lomison	Bus. Comp. Science
Ronnie J. Madden	Bus. Comp. Science
Gerald McInerney	Eng. Drafting Tech.
Ronald C. Miller	Eng. Comp. Science
Hyde D. Riddell	Eng. Comp. Science
Frank R. Rohland	Bus. Administration
Chester J. Ruth	Eng. Comp. Science
Robert W. Saam	Eng. Comp. Science
Allen M. Spotts	Eng. Comp. Science
Michael J. Stankevich	Bus. Comp. Science
Leonard N. Starkey	Eng. Comp. Science
Nelson R. Swartz	Eng. Comp. Science
Thomas E. Williams	Bus. Comp. Science

CERTIFICATE DIPLOMAS

William R. Anderson	General Machinist
Albin J. Bugdonis	General Machinist
Paul E. Ebersole	General Machinist
Wade W. Elliott	General Machinist
Wayne M. Fodor	Carpentry
Peter A. Gregas	Carpentry
Randall C. Harshbarger	General Machinist
Elmer M. Labuck	Carpentry
Stephen D. Lauer	General Machinist
Frank McCormick	Sheet Metal
Lee R. Netterblade	Mechanical Drafting
Danny H. Phillips	Plumber
George Pomerville	Plumber
Jackie L. Quick	General Machinist
Daniel W. Schlegel	General Machinist
Christopher Wickenden	Heavy Equipment

Practical Nurses Graduate

Twenty members of the 1966 class in Practical Nursing participated in graduation exercises August 25. Linda Quiggle received the Helen A. Smith award; Kathryn Schaefer won the Divine Providence Hospital Nurses Association Award; Carol Avery earned the L.P.N.A.P. award while Alice Hartzel claimed the Obstetrical Award and Cheryl Feaster won the Pediatric Nursing Award.

Graduates included those named above and Sandra Karney, Margaret Murmane, Sandra Kennedy, Linda Stevens, Bonnie Haupt, Martha Minnich, Roberta Weaver, Ilona Lannen, Gayle Ward, Iris Brown, Marjorie Brown, Connie Burley, William Clark, Linda Frye and Carol Ritter.

Your Student Council

WACC Helps City Celebrate

The college-sponsored float pictured above was a standout feature of a two-hour parade in late August culminating Williamsport's Centennial Celebration. The theme of the WACC float was a comparison of the one-room school house of the 1860's compared with the audio, visual and computerized techniques being employed in modern education.

Pictured on the float are Elaine and Carol Sick, daughters of Mr. Joseph Sick, WACC Educational Association president; Liberal Arts

Student Council Greeting

The Student Council takes pleasure in welcoming to the ranks of WACC the new members of the faculty and student body. We feel sure that you will find happiness and success in all you do here at WACC.

Although we are not one of the largest colleges in the area, we feel that we have as much to offer as the larger colleges have concerning friendship, quality of courses, and variety of curriculums. In addition we feel that at WACC you will get the personal attention that is necessary to acquire a good education.

We would also like to welcome; back those members of the faculty and student body, who have been on Summer Vacation. It's time to put away those tennis rackets and bathing suits and get out the notebooks and pencils. The vacation is over. The work must begin before we forget how to work. The student, who lags at the beginning of the year, usually doesn't make the grade at the end of the year.

Students Bill Collins, David Menne, Agnes Knittle, Lauretta Boyle, and Kent Seitzinger (the school master); and John Kennedy, a '66 graduate of Williamsport High School.

Richard Long of the college staff directed the project. Helpers included Mr. and Mrs. Roland Alberts, Jr., Mr. and Mrs. David Heiney, Frank Grenoble, Bill Stitzel, Bill Best, and the Civil Defense Rescue Squad. Student help included Roland Alberts, Tom Caldwell, Mary Windor, Robert Stout, and Hyde Ridell.

Enrollment Soars

As we go to press it looks as if there will be 1,725 of us here on the campus as full-time students this year, an increase of about 200 over last year.

More than 1,500 will be in Applied Arts and Science courses with approximately 1,200 returning for a second year of study. At the moment, 210 are enrolled in Liberal Arts and Sciences, but there is every indication to think that this number increase substantially as there is still a heavy flow of applications in this area.

The cooperative program with area high schools will continue with more than 600 students on a half-time basis.

These programs coupled with an expanded night school program in Continuing Ed, should rise our total well over the 2,000 mark.

Oct. 5--Student Government Meeting
Oct. 15--Parents' Day

President's Message

At the beginning of our second year as The Williamsport Area Community College, I wish to welcome back the students and faculty who were with us last year and to extend warm wishes for success to new members of the student body and faculty who are with us for the first time.

As you look around you will find many changes—a new library, new laboratories, a bigger and better book store, to name a few. And your Board of Trustees and the college administration are busy with our consultants on long-range plans almost beyond our wildest dreams.

This year our enrollment has again increased and the school of Liberal Arts and Sciences will be aiming toward its first graduation next Spring. New courses in Applied Arts and Sciences have been initiated to satisfy specific needs of the area. I hope that you all can share with me the spirit of growth that is all about us.

The 1966-67 term will be a real adventure for all of us. May I take this opportunity to wish each one of you "Good Luck" in facing the challenges of the coming year.

Sincerely,
Kenneth E. Carl

Purchase O.K.'d

The board of directors is working closely with the Williamsport Redevelopment Authority to acquire cleared land for future college expansion. The authority has offered W.A.C.C. assistance in the form of 65 acres which could be made available for \$10,000 an acre.

If the college eventually acquires this land in addition to its other property, it will have 99 acres at its disposal.

The Board of Trustees has given its approval to a purchase price of \$2,281,000 for the purchase of the Williamsport High School complex, a portion of which is now being used by the college. It is expected that the purchase will become final when the High School moves to its new location in September, 1968.

The Automobile

The automobile, as the American College Dictionary describes it, is a vehicle, especially for passengers, carrying its own power generating and propelling mechanism, for travel on the highways. Yes, that's what the manufacturers meant it to be, but the American People have gone farther than that and turned it into a means of population control!

Statistics show that nearly 50,000 Americans are killed and more than 100,000 seriously injured or crippled each year in auto accidents. Why?—is it because the machine is unsafe? No, for each year auto manufacturers devote their efforts to making their product safer. And they have done a good job—the present-day automobile is completely safe if driven as it should be. The blame for most accidents rests with the driver's inefficiency or negligence.

Traffic authorities have formulated laws governing safe driving. If we, as drivers, follow these regulations closely, the accident rate will show a dramatic decrease.

Too many of us use our cars to show off in. "Dragging" is a fine sport—on the strip—but it can be plain murder on the streets and highways if some unsuspecting pedestrian or motorist gets in the way. We can be safe, law-abiding citizens, only if we keep our cars under complete control at all times.

Also—if your car has seat belts, use them and insist that your passengers do the same. If you don't have them, get them installed—the life you save could well be your own.

But, first and foremost, we must obey the laws and safety regulations set up for everyone's safety. Remember—a funeral is an expensive price to pay for carelessness.

Credits by Exam

The Board of Directors has adopted a credit-by-examination provision under which students may receive a maximum of 15 credits based on their test scores. Dr. Carl points out that the grade assigned to the student for each course will be determined by his score. He also warned that the program is not for those who have flunked a course and who wish to make up lost credits.

In a second policy decision, the board made it possible for transfer students and outstanding high school students to gain a maximum of 30 credits. The advanced credit system will eliminate the need for a student to take a course in which his knowledge is adequate. At the same time, it will give the student who has done outstanding work an opportunity to advance more rapidly.

Williamsport, Pa., Friday, August 19, 1966

The Boy Has Grown to Be Quite a Man

Turn to the "News of Years Ago" column elsewhere on this page and you will read under date of Aug. 19, 1941, that a resolution was passed by the Williamsport School Board setting up a vocational school for adults as well as school-age students.

The same resolution officially designated this school as "the Williamsport Technical Institute." Thus today marks its 25th anniversary.

Prior to 1941, local educators — notably Dr. George H. Parkes, later superintendent of schools — and industrialists co-operated in the re-training of unemployed persons.

With this experience as a background, the Technical Institute broadened its base so as to afford training in a wide area of skills. In this process, it became a much publicized model which other communities copied.

It has given Williamsport an identity in vocational education somewhat akin to the city's prominence in sports as the home of Little League.

But what is more to the point is the fact that our Technical Institute in 25 years has grown to be the Williamsport Area Community College.

Indeed, the boy has grown to be quite a man!

Reproduced with permission-courtesy Williamsport Sun-Gazette

Philosophy

The following is an excerpt from the College catalog:

"The Williamsport Area Community College is committed to the concept that all individuals in a democracy should have full opportunities to develop themselves to the limits of their capacities through education. The vast majority of our citizens will need some form of education beyond the formal education they received in their youth. The community college should provide the opportunities for man to learn more about himself and his fellow man, his community, state, nation, world, and the universe in which he lives as well as the history, languages, cultures, and issues of the world about him and such other avocational interests as he may have or develop. It, too, can be of great services to its community by providing "developmental or remedial educational services" for its out-of-school youth and adults who are in need of such services.

"A public community college must provide a very strong program of guidance and counseling. This program is needed to help our youth and adults "find themselves" so that every individual may realize his full potential, educationally and occupationally. A program of instruction and guidance must be provided to help every student discover his aptitudes, choose a life's work and prepare for the successful pursuit of such work.

"The public community college will offer a wide range of curricula and courses for both transfer and non-

transfer students that will offer a challenge to students with a wide range of academic ability for both the liberal arts oriented and occupationally oriented students, for both full-time and part-time students, and for youth and adults.

"Our strongest commitment shall be to provide quality instruction in all courses and curricula with rigor and level suited to the purposes of each course and with high quality instruction in all courses."

Upsy Daisy!

A new library and new laboratories for chemistry, physics and biology highlight the changes made on the campus during the summer.

The new library will be located at 1225 W. Fourth Street in a modern building formerly occupied by a self-service cleaner. The new labs are located in the administration building in the area previously occupied by the Sign Shop which has moved to a former warehouse on Park Street behind the campus.

Mr. Magee and the book store have moved to a cottage located just off Susquehanna Street across from the shops. Also in the same general area new offices have been prepared for faculty members in the Straily building across from the gym.

In the administration building, the business office has moved to the old book store and new offices have been provided for Deans Homisak and Bardo. Also, the cubby hole across from the nurse's office has been converted to a data process center for the Computer Assisted Instruction program (see article elsewhere on this).

Red Carpet Is Out

Visitors to the college will be sure to receive "red carpet" treatment now that Dr. Carl's office has received its new rugs. For disciplinary problems students, please be advised that at least you can be called on the carpet in first-class style!

NOTICE!!!

NOTICE!!!

NOTICE!!!

It is necessary that ALL NEW STUDENTS take the American College Test.

This will be given as follows:

Saturday September 17, 1966 9:00 A. M.
for ALL NEW LIBERAL ARTS STUDENTS

Saturday September 24, 1966 9:00 A. M.
for ALL OTHER NEW STUDENTS

Please report to the Administration Building, 1005 West Third at 8:45 A. M.
on the scheduled dates.

There will be no charge for this and it is important that each new student take
the test.

The testing will take 3 hours.

WACC Faculty Has Busy Summer

David M. Heiney, assistant registrar and director of Student Affairs, was one of many members of our faculty who were busy this summer advancing their own educations at colleges and universities all over the country. Mr. Heiney received his M.A. degree in Guidance and Counseling at Bucknell University.

Dale B. Sullivan, business management instructor, also crashed through with his Master's Degree in Business Education from Bloomsburg State College.

Fred Bierly and Leroy Simpson of the mathematics department were at Bucknell working on advanced degrees in their specialty.

William Homisak, dean of Continuing Education, was at Penn State slaving away toward a doctorate. Martin Salabes, electronics instructor, also was at Penn State to attend an Institute in Electronics.

Jack Deibert and Jay Hilsher of Graphic Arts were at Illinois State University attending the International Graphic Arts Association conference.

Tibor Farkas, assistant professor of government, was at the New School for Social Research in New York City, working toward his doctorate in political science.

Richard Brown, assistant professor of history, was at Carnegie Tech as a participant in the Summer Institute in History.

Ralph Boyers, assistant professor geography and geology, was at Penn State working on a doctorate in geology.

Bob Kissel, assistant professor of history, participated in a six-week training institute for junior college personnel sponsored by the U. S. office of Education.

Jay Hilsher, Harold Newton and Dale Metzker from Graphic Arts attended the Eastman Kodak Graphic Reproduction Clinic at Rochester, New York.

Mrs. Marguerite Wright and Mrs. Regina Hepner of Practical Nursing attended a one-week Practical Nursing Clinic at Penn State.

Parent's Day

Just as we went to press, we got word that a Parents' Day has been scheduled for Saturday, October 15. Our next issue will give a complete picture of the program that is being planned.

Meanwhile, we know that this will be a fine opportunity for our families to visit the college and learn more about how we are spending their hard-earned money, and see many of the changes that have taken place.

Library Schedule

Andrew Spuler, College Librarian, notes that the Library will be open at its new location at 1225 West Fourth Street as follows:

Monday through Friday 8:30 A. M. to 9:30 P. M. -Saturday 9:00 A. M. to 12:00 Noon.

Dropping A Course

The following is an excerpt from the College catalog. A student may drop a course anytime before the last two weeks of a semester by completing an official "Change of Roster" form. A course dropped before the first examination is recorded with a "W" grade. A course dropped after an examination results in a recorded grade of "WP" or "WF" depending upon whether the student was doing passing or failing work at the time of withdrawal. No credit is given for a "W" grade.

Armstrong Scores

John Armstrong, second-year Drafting Technology student, was the winner of the Lock Haven water skiing championship held last month on the Susquehanna River. John also is an expert on the ski slopes during the winter.

Computer Science Grows

Consideration is now being given to expanding the computer facilities at the college to handle more than the present 50 students. The college board has approved the filing of a letter of intent to lease an I.B.M. 1401 computer system. The new unit, which will be used in addition to the college-owned 1620 system, is capable of handling both scientific and business-industrial programming. The new facilities are expected to be available early in 1967.

Classification of Students

The following is an excerpt from the College Catalog:

FRESHMAN CLASS-All students with fewer than 30 semester hours of credit are members of the freshman class. Dances, assemblies and other activities will be sponsored by the class throughout the year.

SOPHOMORE CLASS-All students with at least 30 semester hours of credit are members of the sophomore class. Class activities of various kinds will be available throughout the year.

Molders of Men

Elsewhere in this issue you have read of the emphasis on growth here at WACC. Nowhere is this emphasis more pronounced than in the procurement of an outstanding faculty--the "Molders of Men." Pictured above are most of the twenty-seven new staff members for 1966-67.

Front row, left to right: Wendell H. Woodside, Speech and English; Henry C. Moonschein, Jr., English; Thomas C. Shoff, Guidance and Counseling; Kenneth A. Jackson, Science; Mrs. Jean Cunningham, Surgical Technology; Mrs. Nancy A. Sanders, English; James E. Logue, English; G. David Porter, English.

Second row, left to right: Larry S. Clark, Welding; Dale A. Metzker,

Graphic Arts; Jack Mirto, Auto Mechanics; Lynn Getchen, Machine Shop; Forrest Johnston, Machine Shop; Miss Laura Coleman, Librarian; Charles Q. Simcox, English; Donald Aurand, Mathematics.

Third row, left to right: Dale R. Straub, Drafting; William F. Shade, Drafting; Tibor Farkas, Government; Lee E. Roush, Auto Mechanics; Richard C. Brown, History; David B. Clark, Chemistry; Roger E. Davis, Mathematics; Anthony Guravage, Electrical Construction.

Others not present when the picture was taken include: Robert G. Bowers, Mathematics; Dr. Paul Feng, Sociology; Joseph C. London, Electronics Technology.

Join The Gang

The editorial board of the SPOTLIGHT welcomes you back from summer vacation--all of you, including the administration, the faculty and our fellow students.

Particularly we wish to extend our greetings to new members of the student body and urge you to join us here as members of the SPOTLIGHT staff where you will have an opportu-

ity to broaden your college experience and have a lot of fun at the same time.

If you are interested in applying for a position on our staff, just fill out the attached form and turn it in to

Mrs. Nevel at the College News Bureau across from the Registrar's office. All applications should be turned in no later than September 23.

FIRST IN LINE: Ali M. Al Eady, of Saudi Arabia, yesterday, by alphabetical position, became the first graduate of Williamsport Area Community College. Here Clyde E. Williamson, chairman of the board of trustees, presents his diploma to him.

photo from GRIT

PRESENT PROFICIENCY: Carl H. Simon (left), vice president and general manager of Darling Valve and Manufacturing Company, city, was awarded a framed certificate for being the school's outstanding alumnus. He is a graduate of the former Williamsport School District's technical institute. The award was presented by George H. Parkes, assistant to the president of the college.

photo from GRIT

CHAT WITH SPEAKER. Commencement speaker yesterday at W.A.C.C., Capt. Herbert F. Eckberg, U.S.N. Retired, dean, College of Engineering, Bucknell University at Lewisburg, converses with Clyde E. Williamson (left), chairman, college board of trustees, and Dr. Kenneth E. Carl (right), president of the college.

W.A.C.C. Graduates 171 At First Commencement

On Saturday, June 11, 1966, at 2:00 p.m. 171 cap and gown clad students filed into the Williamsport High School Gymnasium to the tune of "Priest's March," played by Mr. Frank Pannebaker, Aviation Instructor, at the organ. This select group of students became, within the hour, the first graduating class of WACC.

As the procession was finished and honored guests came to complete silence the Invocation was given by the Rev. Robert A. Allen, pastor, Covenant-Central Presbyterian Church, followed by a hymn.

Captain Herbert F. Eckberg, retired navy officer and dean of the College of Engineering at Bucknell University delivered the inspirational commencement address entitled the "Responsibilities of the Educated."

At the completion of Capt. Eckberg's address, Dr. George H. Parkes, Assistant to Dr. Carl, presented the "Outstanding Alumnus" award to Carl H. Simon, vice president and general manager of Darling Valve and Manufacturing Company.

Other awards presented during the ceremony included \$100 to Kenneth R. Swartz of electrical in-

strumentation technology for "scholastic proficiency," \$100 to Marlin J. Beshore for achievement as outstanding student, and Fred Gilmour, technical illustration, for leadership and service to the college and community. Fred was also vice president of the Student Council and Art Editor of the SPOTLIGHT.

Of the 171 graduates 29 were honor students who had achieved an average of 3.3 or better. Five international students graduated, three of which were among the 113 Associate Degree graduates. The other two foreign students received certificates.

Immediately following the conferring of associate degrees and awarding of certificates by Clyde Williamson, chairman of the Board of Trustees, the Benediction was presented by Rabbi David L. Schwartz, of Temple Beth Ha Shalom. At the end of Benediction the graduating class carrying their newly acquired diplomas and certificates, saddened at the loss of many friendships and fond memories, yet happy with their new freedom, proceeded out of the gymnasium to the music of "Pomp and Circumstance."

Registration Woes!

Getting ready for registration is a real problem for the faculty, the registrar's staff and the business office.

First, the department heads must review the total enrollment for each major course and the background of such individual student. Then a tentative schedule for each student must be prepared so that the administration will know how many students will be taking Mathematics, English, and a score of other courses.

When this is known, the administration then must decide how many sections for each subject will be offered and the scramble for proper class hours and available rooms is resolved in joint department head meeting.

When the master schedule has been prepared by the Deans, it is then ready for you when you return to register. At the same time, the Registrar's office has contacted each student to make sure that he will return and has processed the applications of new students.

On registration day itself, there is a concerted push to fill all the slots with a full quota of qualified students. Yes, occasionally it is necessary to drop a class where there has not been sufficient interest or

add additional sections to take care of surges.

An unimpeachable source on the faculty says he is glad when it all simmers down and he can become a teacher once again. And—don't we all feel the same way when we finally get settled?

Withdrawals And Refunds

Although we hope it doesn't happen to you, here is the official word on withdrawals and refunds:

Charges for tuition are refundable upon withdrawal from the College only in the event the student obtains an official withdrawal form from the Dean of his school and presents it to the business office.

Refunds of tuition are based upon the effective date of withdrawal from classes and are only effective during the first three weeks of classes in the following percentages:

During 1st week of classes 88%
During 2nd week of classes 70%
During 3rd week of classes 60%
Registration, Activity, and Service Fees are not refundable.

Absent-Minded

Dr. Parkes to his secretary, Mrs. Nevel: "Now, Mrs. Nevel, just what did you do with those papers after you gave them to me?"

MILTON SHAPP, Democratic Gubernatorial Candidate Will Visit WACC Campus Mon. Sept. 26, 1966

Spotlight

Vol. 2, No 2

THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

October 14, 1966

Mr. Long Attends Workshop

Richard C. Long, Audio Visual Aids coordinator at The Williamsport Area Community College, attended the Overhead Projection Workshop at the Pennsylvania State University early this month.

As one of the seventeen instructors selected from vocational schools and colleges throughout the state, Mr. Long participated in workshops teaching modern techniques in the use of the overhead projector as a tool in the classroom.

Library Curriculum

The college is offering a new two-year library associate course this term. A local concern, Bro-Dart Industries, manufacturers of library equipment, is assisting in the program. Staff members of the James V. Brown library will assist in instruction as visiting lecturers.

State Says "Yes"

Dr. J. R. Rackely, state superintendent of public instruction, has informed the college that a special committee has approved the purchase of the Williamsport High School property. This move paves the way for the state to pay 50 per cent of the purchase price of \$2,281,000.

Enrollment Soars to a New High

Dean Homisak has announced that 450 students have enrolled in the Continuing Education program at the College. This adult night-time program is designed to bring both practical and cultural programs to those who work during the day and wish to continue their education at night.

The Liberal Arts program now has an enrollment of 240 - 175 of these being first-semester students. Combined with 1350 students in the Applied Arts and Sciences, our total full-time enrollment is 1590.

Professor George P. Wolfe shows Miss Candy Lord how to operate the Computer-assisted Instruction equipment in a new research program being conducted here in conjunction with Penn State.

MAN vs. MACHINE

Selected students will have an opportunity to match wits with a computer in a new experimental program being run here in cooperation with Penn State's College of Education. The new program has the fancy name of Computer-assisted Instruction (C.A.I. for short). Professor George P. Wolfe is in charge of our end of the study.

A.C.A.I. system consists of a network of remotely located teaching terminals connected by telephone lines to a computer at Penn State.

Entire contents of subjects to be taught and the performance records of each student are stored in the computer. The computer also controls

the activities of all the remote teaching terminals and coordinates the teaching program with the progress of each student. The computer also programs a slide projector, a tape recorder and a two-way teletypewriter used in the instruction program.

Periodically, the student is quizzed by the computer and responds by typing his answers back to the computer. If the answers are correct, the computer provides further instruction. If not, the computer tells the student what he needs to review and quizzes him again.

Zora Lupold, Joyce Mitchell and Rick Hyman are helping Mr. Wolfe with the C.A.I. program.

Faculty Member Attends Conference

Joseph G. Sick, Assistant Professor of Agriculture at the College, was an invited guest at the Governor's Conference on Natural Beauty held at the Community Center in Hershey, September 12, 13.

The highlight of the conference was the Governor's banquet at the Hershey Arena where the guest speaker was Stewart L. Udall, Secretary of the United States Department

of the Interior.

The conference also included panel sessions on a wide variety of subjects including: The Pennsylvania City; the Complete Highway; Pennsylvania's Water Resources; the Pennsylvania Suburbs; Roadside Control including billboards, junk yards and litter; and the Protection and Reclamation of Mining Areas.

Dr. Carl Receives Award

Dr. Kenneth E. Carl, president of WACC, received one of five national awards given annually by the National Rehabilitation Association at the organization's annual banquet in Denver on Tuesday, October 4, 1966.

This award is given "in recognition of creative service to handicapped people and stimulation of public concern for their rehabilitation."

Dr. Carl began working with the physically handicapped in 1937 at the old Williamsport Adult School, the forerunner of the Williamsport Technical Institute.

He is a life member of the National Rehabilitation Association and will be a delegate to the convention.

Dr. Carl has been a member of the executive board of the Pennsylvania Rehabilitation Association for 10 years and is now serving as president-elect.

Special Events

The College Special Events Committee is sponsoring a series of old-time movies at the Rec Center and the next presentation will be Sunday night, October 16, at 8:00 p.m. featuring the famous "Great Train Robbery" and Melie's "Voyage to the Moon." The series will give a history of the art of movie making from the earliest movies up to the great Chaplin comedies preceding the advent of sound. There is no admission charge and guests are welcome.

Stay In School

Every community in this Nation has a special stake in its youth. Our future depends on the wisdom and knowledge of today's young men and women. The complex problems of the modern world demand trained minds and creative thinking. The only way to prepare our young people for the tasks that confront them is to see to it that they get a good education.

An estimated 900,000 young people will not return to or will drop out of school this year unless we do something about it. President Johnson is asking the Nation's support to keep our youth in school so that they will be equipped for the future. He said "We are determined that the economic and social conditions which threaten the futures of our young people shall be overcome." Perhaps the best way to ensure this goal is to see that all of our youth stay in school and get all the education they can. For it is the drop-out who has the hardest time finding employment. And it is the drop-out who becomes trapped in a routine low-paying job. And these are the people who will continue the chain of poverty.

We can ill afford to suffer the terrible loss of our human resources by failing to see to it that our youth are educated. The important national issue of continued education deserves support. "In the life of an individual," President Johnson has said, "education is always an unfinished task." "And in the life of this nation, the advancement of education is a continuing challenge." This challenge has never been clearer, nor more urgent, than it is right now in view of the growing body of young Americans who are dropping out of school.

In October 1965, more than 10 million 16-to-24-year-old youths were out of school and in the work force. Over three million of them lacked a high school diploma, and in the future the number will be greater for those without at least a two year college diploma. Another 900,000-plus youngsters will be added to this growing battalion of dropouts this school year unless the Nation mounts its forces to prevent it from happening. To head off this possibility and to encourage our youth to complete their education, President Johnson has launched the 1966 Youth Opportunity Stay-In-School Campaign.

Once, in America, a person could drop out of school and readily find a job. But, like it or not, that era, like the horse-and-buggy, has disappeared from our national scene. Sure, there are jobs for dropouts in today's booming economy, but, over the long pull, they will be harder and harder to find since the fastest-growing occupations demand a higher measure of skill and

education than ever. For the young person faced with the decision to continue his or her education, the answer can be reduced to a simple matter of dollars and cents, and perhaps, most of all, to common sense.

At least a high school diploma, and in some instances a two year associate degree, is becoming a minimum requirement for a lot of jobs in our society. Our challenge--the challenge to everyone in this community--is to ensure that every individual gets as much education as he possibly can. The President's Stay-In-School Drive demands the full support and resources of all of us. It's an indispensable investment in the future.

Parking — A Problem????

Not at W.A.C.C.--We have plenty of space, but it is all being used. Therefore, we are asking each of you who drive to be safe, courteous drivers and obey the parking rules and regulations.

If you live close enough to the school (4 blocks) please walk instead of driving. Also, several students continue to drive to classes on Susquehanna Street from Unit 6 and vice-versa. This is unnecessary and only adds to the problem.

New parking areas are being checked into and the student parking lot on Park Street is to be repaved. The lower gate on Park Street will be opened and fixed for student use only. A fence is to be constructed to the left of the main gate and no students will be permitted to park in the faculty parking lot.

Car registration stickers are being printed and registration of all automobiles will be held in the near future.

Editor's Note

EDITOR'S NOTE: Letters to the editor are always welcome, provided the writer observes the following regulations:

1. Maximum length--250 words--longer letters will be edited by our staff.
2. All letters must be signed by the writer--a "pen" name may be used for publication, but the actual name of the writer must be known to the editor.
3. While we encourage student participation in controversial subjects, we reserve the right to withhold letters that are libelous or defamatory in nature.
4. Letters must be given personally to members of our staff or the advisor.

The Soviets report partial success in experiments to teach English to sleeping students. WACC teachers report partial success too.

From 'Changing Times'

Letter To The Editor

Editor, SPOTLIGHT:

SPIRIT! What is the first thing that comes to your mind when you see this word? Well, knowing most of you and also knowing how most of your minds work, I can safely say that a large majority of you were not thinking of what I am referring to.

Spirit is a long-lost thing around here. It is one of the biggest assets this school needs. Sometime when you aren't too busy or involved in something else, just look around and keep your ears open to the remarks that are being made. How many favorable comments do you hear in comparison to the number of criticisms?

Granted, there are a lot of things that you would probably change if you had the chance. And, probably most of these I would have to agree with you whole-heartedly, but I also think that if we are going to be heard making these remarks, we should be able to back them up and help remedy them.

At the present time the Student Government is trying to get organized into a body that has something to say in student affairs. In order to do this, they are going to have to have the full cooperation of every one of us, faculty included.

The first actual meeting of the Student Government was held in the Rec. Center, Tuesday, October 4. It would be a safe guess to say that only about two-thirds of the departments were represented.

Notices were sent out to all the

departments far enough in advance that all the members could have had plenty of time to plan ahead. What happened?

Tentative plans are now being made for some of the events that are to be held this semester and even for the spring term. If no interest is shown by the student body and the faculty, why should the S.G. worry about it?

The remark is always being made that the school never sponsors anything interesting for the students to do. With the present interest being shown and the cooperation that has been shown already this year, is it any wonder?

Every department is supposed to have a Student Government representative. If your department does not as yet have one, get on the stick and get one elected that will show interest. After all, he will be your voice in student affairs and you should see that he is there to do so.

It's still not too late to show some spirit around here. **WE NEED IT!!!**

The Spirit of WACC

W.A.C.C. Senior Citizens

An eight-week course for retired and older citizens will be offered at the college to instruct them how to live a longer, happier life through property, exercise, physical exams, and mental attitudes. Other sponsors for the program include the Lycoming County Medical Society, the Heart Association and the Cancer Society. W.A.C.C.'s course will be the first of its type offered in the Northeast.

The SPOTLIGHT is published every two weeks excepting holidays and examination weeks by and for the students of The Williamsport Area Community College, 1005 West Third Street, Williamsport, Pennsylvania. The office is located at the rear of Unit 6, telephone 326-3761, Ext. 221. Letters to the editor must be signed, with names withheld on request.

THIS PAPER PRINTED BY THE W.A.C.C.
GRAPHIC ARTS DEPARTMENT

VETERANS ADMINISTRATION STUDENTS PLEASE NOTE

The SPOTLIGHT has been asked to bring the following announcement to the attention to all students who are attending the college under the sponsorship of the Veterans Administration.

A change has been made in the procedures for payment of the initial educational assistance allowance checks to students enrolled in courses leading to a standard college degree.

Payment for the initial month of attendance will be released based on the completed Enrollment Certification submitted by the school. A monthly Certification of Attendance will not be required from the veteran for the initial check. Monthly Certifications (VA Forms 21E-6553a) for subsequent months will be required and will be enclosed each month with the check. For example, payment for courses starting in September will be made on the basis of the information furnished on the Enrollment Certification through the end of September. The initial check will contain a blank Monthly Certification to be used by the veteran to report his attendance for the next month. To avoid possible overpayment, veterans and schools should immediately report any changes that occur within this portion of the first calendar month of school.

This procedure will apply to all courses leading to a standard college degree. Included in this category are all courses in institutions of higher level leading to recognized graduate and undergraduate degrees (courses measured on a credit hour basis or equivalent); medical, dental and osteopathic internships and residencies; and nursing, medical and x-ray technology programs. If there is any question as to the application of this procedure to any of your courses, please consult this office.

As a result of our experience in reviewing Monthly Certifications for the first few months of this program, the following guidelines are published:

SECTION A, VA FORMS 21E-6553a

Item 1: The inclusive dates of training during a specific month should be stated. Normally this period will be from the first of the month through the last day of the month unless terminated during the month, i.e. 10-1-66, to 10-31-66, or 10-1-66, to 10-19-66.

Item 2: The number of semester or quarter credits currently being pursued should be stated.

Item 3: To be completed only if the veteran has interrupted his training, in which case the last date of attendance in class should be shown.

Item 4: If there has been a change in the veteran's enrollment - added or dropped a course, the number of credit hours currently being pursued and the effective date should be inserted.

Item 5: The certification is not acceptable if signed and submitted prior to the last date in the reporting period. Postmark dates on the envelopes will be used to determine early submissions of the Certificates of Attendance.

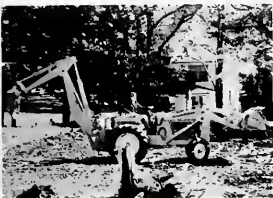

Section B does not apply to students enrolled in courses leading to a standard college degree.

The school is not required to complete Section C for students enrolled in a standard college degree unless there has been a change in his enrollment - interruption, change in semester credits, etc. IF THERE HAS BEEN NO CHANGE IN THE INFORMATION INITIALLY REPORTED BY THE SCHOOL, THE MONTHLY CERTIFICATION SHOULD BE RETURNED DIRECTLY TO THE VA BY THE STUDENT.

DEPARTMENTAL DOINGS

S & O

The S & O Department purchased a new International Diesel Backhoe, which cost the College \$10,000. This is one of the newest and most modern pieces of equipment used in heavy equipment operation today. Everything is hydraulic.

It will be a very beneficial piece of equipment in the training of the students in S & O.

The school has one of the best heavy equipment courses in the country and with new equipment such as this it should become even better.

Aviation

With a reassuring roar the engine started and began its run-in time. This was the reward of a job carefully done.

The summer session in the aviation department began with sixteen powerplant students most of whom, though eager to learn, were as green as fresh springtime buds. This was the first time the department started such a large group of new students. However, in spite of the large class, much was accomplished in the eight short weeks.

Among the engines on which the class worked were those from a Piper Clipper, a Mooney Mite, and a Cessna 150. This fall class promises real achievements as the department moves ahead with twenty-eight students in Airframe and twenty-seven in Powerplant.

Architecture

There is a new organization on campus (The Architectural Club). This is the first club of its kind at WACC and it is open to all Architectural students.

The boys have several activities planned for the very near future, so they can sponsor their own field trips. The first event was a dance on September 29. A 200-mile sports car rally is being planned for October 9, 1966.

Electronics

There have been a few changes in the Electronics Department since last term.

There is a new department head,

Mr. Dawes who took the place of Mr. Harrington who retired.

Mr. Dawes isn't new to the department, for he taught in it before taking over his new post.

The department also has a new instructor, Mr. London.

A quick glance at the department shows things spruced up with a new look. Everything seems to be clean, bright and well organized for the coming semester.

Instructor Is Host

Mr. and Mrs. Wilmer Hepner have the honor of being host to a Foreign Exchange Student this year. Mrs. Hepner is the P. N. instructor for the class at Divine Providence Hospital. The young lady is from England and her name is Elizabeth Rawlings. Of course she prefers to be called "Liz" by the friends she has made at Loyalsock High School, where she is a senior. After she returns to England, her plans include studying to be a nurse at the Florence Nightingale School of Nursing in London.

Attention

There will be an organization meeting for all Community College students (male or female) interested in forming a student YMCA club affiliated with the local and national YMCA. The meeting will be held on Wednesday, October 12, at 3:15 p.m. in Room 109 of the Administration Building (Unit 6).

Further information about possible activities will be discussed at this time.

Senior Student Practical Nurses

The senior student Practical Nurses are now in the process of selling chances for a handmade tied-off quilt, made by one of the girls' grandmother. The price of the chances are 10¢ a piece, three for 25¢, or 12 for \$1. If anyone is interested, contact any member of the senior class of Practical Nurses.

The nurses are taking orders for Christmas decorations, which includes candies, center pieces; and door decorations. To see pictures of them, contact any senior student Practical Nurse.

Classified Ads:

FOR SALE: 289 Cu. in. V8 - 4 barrel 4 speed, GT package, AM radio, rally pack, visibility group, and 4 way flashers. Car is white with red GT stripe. Contact Mrs. Howard-Sec. to Dr. Carl.

That's the Breaks

This fellow, whom you have been seeing around campus lately with a plaster leg, is Rodger Brown. Rodger is a Mechanical Drafting student. He was riding his buddy's Harley-Davidson 74, on September 9, in Steelton, Pennsylvania, when he hit some loose stones, lost control, and hit a speed limit sign; breaking his leg.

Dietary Tidbits

Did you hear about the guy who went on the "Drinking Man's Diet"? In only three weeks he lost twelve pounds and his job. —Sid Allen

The only thing we have ever heard of being consummated at breakfast is a big deal. Revenge is usually plotted at breakfast; murder is usually premeditated at breakfast; children take forever at breakfast; wives take offense at breakfast; husbands take a colding at breakfast; and everybody takes vitamins or thyroid pills at breakfast. —Ward Cannel

I like reading menus better than books but they are fattening.

The newest showgirl diet is called "The Vine." Every other day for two weeks you skip all meals and eat nothing but grapes.

Want a Job?

A representative of the Pennsylvania State Employment Service will register interested students for employment every Tuesday afternoon from three to four and every Thursday morning between ten and eleven in Room 4-B-3 in Unit 4.

The Play's The Thing

Those interested in joining a drama group were present at an organizational meeting Thursday evening, October 13, at 9:30 p.m. in Room 109, Unit 6. Actors, stage hands, set designers, property managers, all will be needed if live theatre is to come to WACC.

Top notch direction is expected to come from the team of Professors Porter, Simcox and MacMullan, all of the English department.

SPOTLIGHT on STUDENTS

Electrical Instrumentation beat Electrical Construction 32-0 in football; Electrical Instrumentation will play anyone from 1:00-2:00... Carlan Espenlaub from E. I. is engaged to Sandy Augustine... Instructor Toney Guravage became the father to a 6 lb. 1 oz. baby boy Wednesday, September 28... Student John Miller of Plumbing is the father to a 6 lb. 4 oz. baby boy... Gregory Andruczy also from Plumbing is engaged to a girl from New Port, her name is Grace... Phil Bjalme, a Mechanical Drafting student, became a father on July 25. His wife Donna gave birth to a boy, whom they named Joseph Bengh... Herb Hunter, Architecture, from Lock Haven, Pennsylvania got married on August 26 to Sandy Rote also from Lock Haven... Miss Nancy Wesn of the Turbitville area and Miss Marion Fletcher of Williamsport who are students in the senior Practical Nursing class have recently become engaged... Brad Hengst, Architecture, got hitched to JoAnn Hortanft on October 1. JoAnn is from Watson, Pennsylvania, Brad is from York... Ron Good, Mechanical Drafting, became engaged to Sue Shepard from Millport, Pennsylvania, on July 14. Ron is from Shinglehouse... Tom Williams, Architecture, was married to Shirley Nicolson, from McKeesport, Pennsylvania, on May 27; Tom's home is in Mill Hall, Pennsylvania.

Campus Heroine

Sharon Ann Chamberlin, Practical Nursing student from Picture Rocks, was getting out of her car one day during the summer at a South Williamsport restaurant when another car in the parking lot began to drift driverless toward Hastings Street.

Sharon jumped into the moving car and managed to bring it to a stop half way across the street. While oncoming Route 15 traffic honked, Sharon nonchalantly steered the car off the highway, thus averting a possible accident.

Parents' Day

As we go to press a committee is busy working on plans for Parents' Day which is scheduled for Saturday, October 22. Please keep your eye on the Bulletin boards for final announcement of the program of activities planned for the occasion.

Faculty Focus

What type of man is Joe ("Easy") Mark? He is the type of guy it takes to keep a group of Architecture students under thumb, and that is just what he does as teacher of a specification course.

Mr. Mark was hired this fall as a part time instructor in the Architecture department, having attained a degree as a registered architect in Pennsylvania, plus working experience with Wagner and Sullivan, (now F. R. Sullivan associated.)

Mr. Mark was born in Philadelphia and attended school in West Philadelphia. While in high school he played football and basketball. Upon graduation from high school he enrolled at Penn State, joined the Alpha, Phi, Kappa fraternity, and received a degree in architecture. Shortly after graduation from college, Uncle Sam knocked on his door so Mr. Mark signed up in the Navy.

Today Mr. Mark lives in his bachelor pad, where in his spare time, he takes care of his tropical fish, he collects stamps, and he tinkers with photography. He claims that he is soon to become a sport car enthusiast. Mr. Mark bowls, plays tennis, and enjoys modern art but not pop art. He likes classical and popular recording, enjoys reading good novels, and in the mind of this reporter reads the best of magazines.

This past summer Mr. Mark flew to Europe where he purchased a 1967 9-12 Porsche in which he chauffeured himself through Venice, Rome, Vienna, Amsterdam, Heidelberg, and many other interesting places in Europe. Mr. Mark claims London to be his favorite European area.

When asked about future plans, Mr. Mark replies, "I have some interest in teaching as a later goal, but for now my ambition is "fame and fortune." Oh yes! for those of you who worry about the future Mr. Mark is also a Fall out Shelter Expert.

Technicians

The average graduate of a technical school is able to reach the salary level of an engineer with a college degree, reports the Engineering Manpower Commission on the basis of a nationwide survey. The commission, representing engineering societies, finds that half of technical-school graduates with 21 to 25 years' experience make more than \$13,000 a year. This is more than 25 per cent of graduate engineers with like experience earn.

Beware!!!

It was recently announced that the facilities of W.A.C.C. will be used as a driver training center for violators under the new point-system.

Coach Lew--Wants You!!

Coach Lew Burdett, our varsity basketball coach, is on the lookout for basketball candidates. Any men interested are asked to report to the high school gym on October 12 at 10:00 p.m. Coach Burdett will explain details of the program and announce the tentative practice schedule to begin the week of October 16.

Each candidate will be asked to fill out an information sheet on his background, present schedule, and personal data so we can establish a practical and profitable practice schedule.

Our athletic director, Mr. Vargo, has done a tremendous job in lining up a nineteen game schedule for this coming season. This is much better than we could have hoped for last spring.

We want to encourage all possible candidates to attend the meeting so we can have the best possible chance of getting our first WACC varsity sports program off to a good start.

If you have had basketball experience as a player, student manager, statistician, or sports publicity make every effort to attend this meeting.

ELSEWHERE ON THE SPORTS SCENE:

Any WACC student interested in a college bowling league should report to the Y.M.C.A. at 3:30 p.m. on Thursday, October 31.

Teams will be formed and shirts and shoes will be free! A banquet and trophies will be awarded at the end of the season.

For further information contact Mr. Tommy Barger Y.M.C.A. bowling lanes or Mr. Dave Heiney at the registration office.

Practical Nursing

On Wednesday, September 21, the pre-clinical Practical Nursing students had a social hour with the senior nursing students. At this time each of the new students was given a "Big Sister", who will help her with any problem she may have during the coming year. Refreshments were served immediately following the introduction of the "Big Sister."

On Friday, September 23, the Practical Nursing class of September 1967 held its first meeting. This class consists of one young man and 34 young women. An election of officers was held, with the following

President	Connie Fahnsdorf
Vice-President	Barry Crawford
Secretary	Irene Stopper
Treasurer	Pat Harris
Student Council Representative	Janet O'Donnell
Reporter	Pat Keiser

Unity?

Our school is lacking in student unity. Why? Because there is no campus? Because there are no dorms? Not really. What is needed is school spirit put in the hands of a few who are aggressive and are willing to devote time to worthwhile activities, clubs, fraternities and other organized groups. The Architectural Department for instance, has formed a club, The WACC Architectural Club. They plan to put on money making drives, so far tentative plans have been made for a speaker in the very near future and long range plans for a ski trip in January.

This year for the first time we will participate in a league sport, basketball. There should be enthusiasm building up to see this team of ours materialize into a winning squad. Keeping our male enrollment in mind one cannot help but visualize a powerful team, but in tight spots against another powerful team a strong cheering section led by good looking cheerleaders, can be the answer.

Cheerleaders, this is a matter that should be concerning every student in school, and especially the girls. The people who are organizing this part of the program should start very soon, for the cheerleaders should have tryouts and be chosen according to ability, then they must adapt their own cheers, and all this is very time consuming. After we start into the basketball season how are we to be called? A fine winning team needs a name or a mascot that will be adapted into the life and future of our school.

Program

What's going to happen on Parent's Day, October 22, 1966? The whole program will get its start in the high school auditorium from 1:45 to 2:30 with a general address by Dr. Carl and others. Then at 2:30 everyone will move down to the high school cafeteria for light refreshments and to see the exhibits that are set up there. All departments will be open to the visitors from 2:30 to 4:30 with selected faculty and students on hand to greet the parents. So, invite your parents to attend so they can see the inside of WACC.

The Community College Segment

The newest segment in the Commonwealth System of Higher Education consists of ten institutions. One of the Board's consultants has recommended that a total of twenty-six such institutions should be in operation within the next few years, with a projected full-time and part-time enrollment of 79,000 students by

1974. This is a phenomenal rate of growth, but the need for higher educational facilities is so urgent that this projection seems entirely justified. It points up the considerable importance of this movement in the total Master Plan. If an additional 228,000 students (over the present 294,000) must be planned for in the ensuing decade, it stands to reason that the community college program must be expected to provide for somewhere in the vicinity of one-third of these, more or less equally divided between full-time and part-time students. The reasons for this are fairly clear: (1) the proximity to the student's home; (2) the low cost both to the student and to the Commonwealth and (3) the provision for types of programs useful in training young people for semi-professional opportunities in the home community. The community college movement will not have served its purpose in Pennsylvania until sufficient institutions have been established to cover the entire state, making commuting possible for the preponderant number of students who seek this level of higher education.

Draft Test

Gentlemen, if you haven't already taken the Selective Service Qualification Test, now is the time to get your application. Applications, which are available at either Local Board 99 or 100 of the Selective Service System located on the second floor of the U. S. Post Office at the corner of West Fourth and Hepburn Streets, must be mailed no later than October 21 to Educational Testing Service, Princeton, N. J.

The tests which are used by local draft boards in determining eligibility for student deferments, will be given at designated testing locations on November 18 and 19. We urge you to take the test if you have not already done so.

Dean's List

The students who stayed on during the summer were real eager beavers since the Dean's list below contains the names of forty of them who really "hit the books."

Glenn D. Barrows	Ronald L. Muffley
Charles Behrent	Homer S. Myers
Kenneth E. Bowen	Gary L. Nichols
Clifford C. Cole	Charlemagne Poody
John H. Colegrove	Hyde D. Ridell
William E. Dieck	Frank H. Rohland
Robert Ford	Joseph R. Rothrock
Thomas E. Gile	Thomas R. Sharer
John H. Hackenberg	Edward L. Sheive
John L. Holdos	Allan M. Spotts
Stanley N. Hutchison	Michael Stankevich
Richard D. Kaler	Jerry Strohm
Joseph M. Kernag	Wayne W. Varner
David E. Kite	David R. Wall
Terry W. Knittle	Thomas C. Weigand
Charles E. Kreutzberger	Michael L. Wert
Ronald L. Kuzmovich	Marvin Wurster
Daniel Leonard	James C. Yarger
Jacque H. Ludwig	James R. Yost
Robert W. Morris	Robert C. Yost

Spotlight

Vol. 12, No. 3

THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

November 2, 1966

Student Government News

The last two meetings of the WACC Adult Student Government were held on October 11, 18. The primary objective of the Oct. 11 meeting was to elect officers for the coming term. They stand as follows:

President	Chuck Pagano
V. President	Ron Good
Secretary	Janet O'Donnell
Treasurer	Jess Hackenberg

The main topic of the October 18 meeting was the fall week-end which is still very much in the planning stage. Tentative plans are now being made and any and all suggestions would be greatly appreciated. If you should have any time to devote or any suggestions to offer, see your Student Government representative as soon as possible. The fall week-end is only about a month off.

Math Puzzle

The SPOTLIGHT, in cooperation with the math department, will run a math puzzle as a regular monthly feature again this semester. A prize of five dollars will be paid to the first person submitting the correct answer to Mrs. Mabel Nevel, in Dr. Parkes' office across the hall from the Registrar's office. The prize money will be donated by members of the math department. Members of the SPOTLIGHT staff and the Graphic Arts Department are unable to compete in the contest.

Now that you have read the rules and regulations, try your luck with the puzzle: The United States makes 77% of the world's automobiles, yet contains only seven per cent of the world's population. How many times as likely is a man to be employed in the motor industry in the United States as elsewhere in the world?

Skiing Anyone

There will be an organizational meeting of a College Ski Club in room 109 Wednesday, November 2, 1966 at 3:00 p.m. All interested persons please plan to attend. If impossible to attend, please contact John Armstrong in Mechanical Drafting or Mr. David Heiney in the Registration Office for further information.

Parents Like To Eat Too

The picture above shows a general view of the refreshment area manned by a faculty wives during Parents' Day on Saturday, October 15. More than 600 parents and friends of the college were present to visit WACC, hear an address by Dr. Carl, and visit with various departments and faculty members.

Dr. Parkes Receives Award

Dr. George H. Parkes, presently assistant to the President at the college, was honored recently by the Williamsport Kiwanis Club for thirty years of service to the Club. He was presented with a special certificate commemorating the event.

Dr. Parkes is well-known on the campus and in the community, having been a former Superintendent of the Williamsport Schools and Director of the former Williamsport Technical Institute.

"CIRCLE K"

Students interested in organizing a "Circle K" club on the campus are urged to attend a meeting on Thursday, Nov. 3 at 3:15 p.m. in the Projection Room-Room 109.

The "Circle K" club is not a social fraternity; it is a service organization for college men and is similar to Kiwanis and other service clubs. It offers many opportunities for the students to serve the college, the community, and the nation.

Dean Homisak will conduct the organizational meeting; Mr. Heiney and Mr. Kuhns will serve as Advisors.

This will be a campus club and will be a member of the state and the national "Circle K" clubs affiliated with Kiwanis International.

Work

The Employment Service is building up a supply of applicants who will be available for full-time and part-time work during the pre-Christmas shopping period.

If you are available for employment, contact the Pennsylvania State Employment Service at once. Bureau of Employment Security 734 West Fourth Street Williamsport, Penna.

Blood! Blood!

The Student Government is sponsoring a visit by the Red Cross Bloodmobile on Wednesday, November 9, at the Central Baptist Church at Seventh and Main Streets from 11:00 in the morning until 5:00 in the afternoon. Students and faculty alike are urged to visit the Bloodmobile and help meet our quota.

The visit should be of special significance to us here at WACC since Bob Kline, who operated the restaurant on Park Street across from the administration building, will be undergoing open-heart surgery in the near future and will be dependent on the Red Cross for a large quantity of blood during and after his operation.

Student Government is asking that all donors state specifically that their donation is to go to Bob Kline.

Noted Lecturer Here

Dr. Laurence H. Lattman, noted lecturer and Professor of Geomorphology at Penn State, will present a talk on the "Evolution of Science," in the Rec Center on Thursday, November 3, at 8:00 p.m.

The committee has told this reporter that Dr. Lattman's talk will be geared to the understanding of the ordinary college student of average intelligence. Those who have heard Dr. Lattman say that his ideas have a practical application in most of the fields of study here on the campus.

Dr. Lattman's lecture is free and will be open to the public.

Drugs!

On October 20, 1966, Dr. Albert Levitt of the Pennsylvania Board of Parole in Philadelphia, spoke to an audience of approximately 300 college students in the Williamsport High School auditorium on drugs and drug addiction.

Dr. Levitt discussed many kinds of harmful drugs including Heroin, Alcohol, Barbituates, Marijuana, glue sniffing, and LSD, which is quite prominent in the news today. He also discussed the reactions these various drugs have on the body and mind, the cost of drugs, the methods of consumption, and the origin of the drugs. Immediately following the lecture a question and answer session was held. The content of Dr. Levitt's message can be simplified as DON'T USE DRUGS!

editorial

You're to Blame

Here at the SPOTLIGHT, it has come to our attention, that one of our instructors recently made the statement that he and his group are seldom mentioned on these pages. This remark and ones quite similar to it can be heard almost any day in the halls of WACC.

The blame is not to be placed on the SPOTLIGHT staff. It is not the SPOTLIGHT'S intent to show favoritism to any student or any group. As stated in our first issue: "Every college newspaper is founded on a few basic principles-the SPOTLIGHT is no exception. The following is a summary of our objectives: to collect and reproduce accurately all college news; to act as a means of communication for the administration, faculty, and student body; to acquaint our readers with each other and the college; to express student opinion in our editorials; to publish a calendar of current and future events; and to serve our readers in every way possible.

Although the staff feels that this newspaper is and will continue to be a complete success, we welcome any constructive criticism from you, our readers."

Editor's Note: "Hey, friends, feed any personal news you have to your student council representative or call Extension 221 between three and five any afternoon." If you're not getting your news to us, it's not our fault your name does not appear on these pages. If you feel that it's a necessity to appoint someone in your group to keep us informed, do so. Then if your news doesn't appear, your representative is to blame.

Hooray

The recent announcement, released by the Administration to the SPOTLIGHT, stating that WACC has a parking problem came as a shock to no one. It stands to reason, that an increase in enrollment results in an increase in the number of students who drive to school. Undoubtedly, when you increase the number of cars to be parked and do nothing to increase the number of available parking spaces, you create a small problem of where to put the extra cars.

The Administration is to be applauded in their quest for solutions to our ever mounting problem. The suggestion that those living within four blocks of the college should walk to classes is undoubtedly a sound one. What is our society coming to if we can't walk four blocks to school, or even between

units? Also to be commended is the Administration's newly adopted policy on the registration of ALL automobiles.

However, it isn't fully understood how the repaving of the Park Street lot can be beneficial, unless the present facilities are widened a few feet. The present which is somewhat lower than the difficult to enter and leave the parking spaces safely and easily.

If the lower gate on Park Street is to become the main access to the parking lot for the student body, then something should be done to widen the gate and improve the approach area from Park Street into the lot. Due to the existence of a catch basin, in Park Street, which is somewhat lower than the street surface, there is a tendency for cars leaving the lot to drag on the curb.

Activities

What extra curricular activities have you signed up for? There should be no student at WACC without an activity in addition to his regular duties. Your education won't be worth much if you don't learn to get along with other people - you have to get out and meet people, work with them, have fun with them, and share their interests.

This year, you are fortunate at WACC as there are innumerable clubs being formed. For your budding journalists, secretaries, and businessmen there is the SPOTLIGHT. Those interested in drama can find happiness in participating in the college play, which will be presented for the first time this year. You mathematicians and future teachers need not take a back seat to anyone; join the Mathematics Application Club. For the thinkers there is the debate team.

You sports enthusiasts can take joy in the skiing club, the YMCA club, the basketball team or the intramural program. You have your service organizations too, such as the Circle K Club and the Student Government.

Yes, now is the time to get an extra curricular activity before it's too late. Get the most out of your education, get an activity.

The two points in the United States separated by the greatest distance are Kure Island, Hawaii, and Mangrove Point, Florida. These points are approximately 5,848 miles apart

Letter to The Editor

Through this letter I feel that I am speaking for a majority of the students here at WACC.

Last year, the student council formed a dance to be held every two weeks in the Rec. Center. Recently, the dance was discontinued due to the lack of interest and roudiness on behalf of the student body.

Students must have a place to congregate and have good clean fun, or they'll resort to other measures. The Rec. Center was rented for the purpose of enjoyment for WACC'S students. I attended the last dance held there and there was NO sign of roudiness WITHIN the building.

Why should the college be responsible for the "hanky panky" that goes on OUTSIDE? Why shouldn't these problems be those of the Williamsport police force?

The dance generally ends by 11:00 - 11:30. Why couldn't a few neighbors within the Rec. Center vicinity go to bed SLIGHTLY later in the evening, once every two weeks? Would they rather have the students roaming through the town instead?

Also, about lack of interest - the final dance was packed! Everyone there enjoyed himself - so why should it stop? Why don't some of the faculty attend the dance and find out what it's really like?

An Annoyed Student
Annoyed Student,

I agree with you in some respects, but feel that you have taken a narrow point of view in others. Students do need a place to con-

gregate and have fun. That is why the administration is renting the Rec. Center. Unfortunately, we students have put the faculty and administration in the position they are in, concerning these dances. There is no reason that the people who live in the vicinity of the dances should have to put themselves out, to the point that they would have to go to bed later on dance nights. We are supposed to be adults, and unless my philosophy is wrong, adults don't leave dances acting like children, squealing tires, and causing a commotion. There should be no need for faculty supervision for these dances. As you said, there are no signs of roudiness within the building, and I feel quite sure that the fact that a faculty member was in the building would not discourage the happenings outside.

Foreign Students

Foreign students from Europe; Germany, Switzerland, Yugoslavia, South America; Ecuador, Africa; Congo, Kenya, Ethiopia, and Malawi met for their first time on the 13th of October at Lycoming College.

The large percentage of attendance confirmed, was an indication to the future prosperity and the need of the organisation.

This is the first meeting of its kind between the students of Lycoming College and the Williamsport Area Community College. Both groups expressed their willingness to work together.

Plans are underway to make a fixed and convenient schedule for further meetings.

DEPARTMENTAL DOINGS

Practical Nursing

Mrs. Thelma Morris and Mrs. Regina Hepner, instructors in the Practical Nursing Program, recently attended a symposium of evaluation at the Holy Spirit Hospital in Camp Hill. Mrs. Sara Shea, coordinator of the Practical Nursing Program in Lancaster presided at the meeting, which was held under the auspices of the Pennsylvania League for Nursing.

The morning session was devoted to the evaluation and selection of prospective students. The speaker was Dr. Charles Hill of the Lancaster School District. Mrs. Doris Gosnell of Pittsburgh spoke at the afternoon session on ane.

The Clinical Practical Nursing students rented a stand at the Market House on October 14 and 15 to sell Christmas decorations, candles, and food. Chances were also sold on a quilt, which is to be chanced off in November. Class members who worked hard to make this project a success were: Mary Winder - publicity; Mary Knittle and Sharon Chamberlin-transportation. All members of the class participated.

On Friday, October 7, the Practical students held their first bake sale at Unit six and Unit eight. A profit of \$48.60 was made.

This term the students are taking a first aid course on their own time, which is being taught by Mrs. Uruian, a volunteer of the American Red Cross. The course started October 11, and will continue for five meetings, each two hours long.

On Friday, October 14, the Practical nursing students went to the Divine Providence Hospital for their orientation. The class was introduced to Sister Emiline, administrator; Sister Lawrence, administrative assistant, and Mrs. De-Victor, Director of Nursing Service. Sister Lawrence then showed slides of the hospital and conducted a tour.

New Engine

The Ford Motor Company has donated a new 289 engine, transmission, and complete rear axle assembly to the Auto Mechanics Department of WACC. This drive transmission will be used for instruction in the shop.

Business

Students in the Business Law class and their instructor, Mr. Alex Bailey, took a tour of the Lycoming County Court House on October 18. A highlight of the tour was their attending a civil court case presided over by Judge Greevy.

The Finish of the Rally

Susquehanna Fall Tour

It was a beautiful sunny morning on Sunday, October 9. The air was crisp, but warm enough to keep the tops down the entire day. Both drivers and navigators grew tense as they approached the starting time. The cars, one by one, left Good's Sports Car Rally Center for 200 miles of rallying, which took them on some of Pennsylvania's most exciting roads, in addition to taking them through some of the most scenic countryside to be found. It took more than eight hours, for the 38 cars that started, to finish the race. The event was climaxed by a surprising finish at the Marks Restaurant in South Williamsport.

The rally was sponsored by the Architectural Club, which is planning a night rally to be held in early November. The final date, time, and place will be announced at a later date.

In addition to the first place team, dash plaques were taken home by: James Newpher - Machine Shop, who took third; Gerald Slenker-Architecture, who took ninth; and Joe Mark an instructor in Architecture who took twelfth.

The first place team. L. to R. Kevin Snell Liberal Arts, Chuck Payne, Galen Stump, Stan Miller, Terry Cockroft, and Chuck Pagano, who are all in Architecture.

Interviews

During the week of October 17 to the 22, representatives from Bell Telephone and A.T. & T. interviewed the graduating class in the Electronics Department for possible job openings in the two firms. The interviews were held in the Electronics Department.

Carpenters Gave 98

The carpenters on the second shift are already going ahead at a very fast pace. Everyone is working enthusiastically and eager to learn as much as he can. "A stitch in time saves nine" seems to be their motto!

Several items to be used in their later part of training have been completed and a few more are under construction.

On Parents' Day, things such as puzzles, bench hook, push stick, mitre box, spool, wood float and masonry were exhibited. Mr. Fague the class instructor, decided to make 98 receipt holders, which were given to the parents on this day. Due to pressure of work and time, it was difficult to make more of these little souvenirs.

WACC Student A.S.T.M.E. Meeting

Some members of the Tool Design and night shift Mechanical Drafting department attended the monthly meeting of the American Society of Tool and Manufacturing Engineers, "A.S.T.M.E." The meeting was held at the Carlton Manor on Washington Boulevard, Williamsport.

Mr. Waldo R. Russel from Cleveland, Ohio was the speaker. He is the manager of Production Design and Application Department for the Cleveland Twist Drill Company.

The topic of his speech was "The Art of Reaming." Mr. Russel showed slides of the different types of reamers and explained the application of each kind. He then answered questions from the audience about reamers and reaming applications.

The students who attended the meeting enjoyed the speech, and learned much valuable information about reaming.

Tool Design wishes to thank Chapter 49 of the A.S.T.M.E. for inviting the students of WACC to attend their meetings.

The next meeting will be on November 14. The speaker will be Mr. Edward Mueller, sales manager of the Fafnir Bearing Co. He will speak on the use of, and also the problems with bearings.

Lost & Found

White orlon bulky knit sweater. Left over at picnic. Owner call Ext. 230 or pick it up in the practical nursing facility.

The highest mountain in the United States is Mount McKinley, Alaska-elevation 20,320 feet above sea level.

SPOTLIGHT on STUDENTS

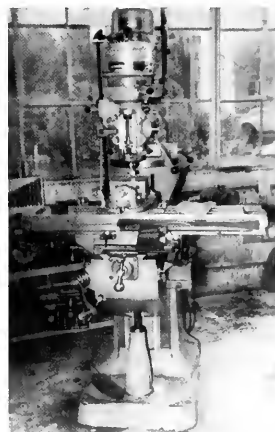

Kirk Adams of Machine Shop got tied to Kathy on August 27.

Also from Machine Shop, Richard Miller of Lock Haven became a father to a six-pound two-ounce baby girl on October 8. His wife's name is Cinnie, also from Lock Haven, and the baby's name is Amy Lynne.

Machine Shop students had interviews with two men from the IBM Company at Vestal, New York on October 19 for the Tool & Modelmakers training program.

Michael C. Romanesky, a second semester student of Graphic Arts, got married on September 18, 1966, in Bennettsville, South Carolina, to Debbie Lee Smith. Hey! OMR boys!

Why doesn't Daryl Sweigart have to take the adding machine test?? Miss Winder and Miss Fletcher, senior Practical Nursing students are participating in the Computer Assistant Instruction Course. Jane Cervinsky recently made an attempt to customize Yvonne Greenfield's Mustang by using it to customize the rear of a Thunderbird. The SPOTLIGHT wishes to thank Rick James for fixing the bell on the typewriter.

This is a new Bridgeport Milling Machine located in the Machine Shop. This jig boring machine, complete with optical tooling, was purchased by WACC for \$3000 in May, 1966.

Anna-lyst

Dear Anna,

Since I've been here at school, I've met this girl. We are in love and planning marriage. My problem is that every day after school she insists we go for subs at a local sub shop, where I order mine with lettuce, tomato, and mayonnaise. She orders hers with onion and peppers. I hate onions!

"Onion Hater"

Dear "Onion Hater",

The time next you sit down at a table to eat subs, place a bottle of "Colgate 100" between you. If she doesn't take the hint, marry her and "rule theroost."

Dear Anna,

Last week I went with the guys to a bacheor party at another friend's apartment. We were innocently toasting cheer to our doomed comrad when the door bell rang. It was my wife in one of her golden moods. She rushed in screaming, grabbed me, and ordered me home. I was completely humiliated by this scene. She is always doing things like this to embarrass me. How can I make her stop this foolishness?

"Possessed"

Dear "Possessed",

There are two possible solutions to your problem... either divorce her or have "pitter-patter of little feet" to keep her in the nursery.

Dear Anna,

My girl friend and I met two fellows from out of town. We got to know them real well, when all of a sudden we got jilted. The doors to their apartment once were always open; now they're locked! They didn't want to be just friends; when we showed interest, we were shut out in the cold. Help!

"Two Ladies"

Dear "Ladies",

Shape up or ship out! There are plenty more Tom, Dick, and Harrys. Next time stay "Just Friends".

Dear Anna,

Last semester I was unjustly blamed for climbing a wall in the drafting room and leaving footprints. I know who really did it and I dare not squeal on him for he is a close friend. How can I make him confess so my name will be cleared?

"Framed"

Dear "Framed"

There is but one answer-someday when his shoes are unoccupied, chalk the soles, put them on and walk up and down the walls yourself! There's your case.

Do you want something analyzed? Put your problems in the Spotlight mailbox in Unit Six or bring them to the Spotlight Office.

New Professors

A delightful personality and a smiling face are two outstanding characteristics of Tibor Farkas, a Liberal Arts professor.

Mr. Farkas was born in Budapest, Hungary in 1932 and received much of his education there. He graduated from high school in Hungary and attended four years of college at the University of Budapest studying with the faculty of philosophy for a major in history.

In 1965, the Hungarian Revolution took place and Mr. Farkas, as well as numerous other people, had to flee from his country because of the invading Russians. He escaped to Austria but was captured and jailed. He then escaped to Yugoslavia which was a neutral country. He made various concentration camps his home while staying there. During his stay in Yugoslavia, a committee from Paris, "Free Europe", discovered his ability to speak French and offered him a scholarship to study in France. After taking advantage of this for a summer, he decided to transfer his scholarship to the University of Brussels. In 1961, he earned the degree of "licence in sciences politiques" which is equivalent to an American master's degree.

In this same year, 1961, Mr. Farkas came to the United States. He resumed his graduate studies at the New School for Social Research in New York.

When Mr. Farkas completes his thesis this year on "The French Presidential Election of 1965," he will be awarded his doctorate degree. He will also qualify for American citizenship.

Mr. Farkas taught at Stratford College in Virginia for two years before coming here. He is teaching French, American Government, and World History. His hobby, which is international relations, has given him the desire to form an international relations club within the school. He hopes to take a group of students to the United Nations for a week this year and meet with various foreign ambassadors. Each participating college selects a foreign country and sends a group of students to represent that country at the U.N. The students talk with the respective country's ambassador and draw up artificial plans and ideas concerning the country. Anyone interested in joining an international relations club should contact Mr. Farkas in the Straley Building next to the gym.

☆☆☆

One of the new mechanical drafting instructors at the College is Mr. Dale R. Straub.

Mr. Straub graduated from the Jersey Shore High School in 1953

and entered the Army the same year. Upon completion of his military duty in 1956 he was released as a sergeant.

He attended the Williamsport Technical Institute in the Drafting Department. Upon graduation he went to work for Gannett, Fleming, Coddery and Carpenter in Harrisburg, Pennsylvania, as a draftsman in the bridge department. After two and one half years in Harrisburg, he came back to this area and went to work for the New York and Pennsylvania Paper Company, Lock Haven, Pennsylvania, as a draftsman in the Maintenance and Engineering Department. After working six and one half years in Lock Haven, he came to work for the Alcan Cable Company in Williamsport, as a draftsman. Mr. Staub remained with the Alcan Cable Company until he was accepted as a drafting instructor at the Community College.

He is married to the former Carol Mantle of Jersey Shore and is the father of two sons and one daughter.

The Sports Scene

The bowling league for WACC students has been started as of Thursday, October 20, and Mr. Tommy Barger says that the season looks very good. Mr. Barger stated that 10 to 12 teams have been organized with three men and one girl to a team. They will be bowling regularly from October 12 at 3:30 at the YMCA lanes. After the league gets initially underway, the weekly scores, standings, and individual high games will be reported in the "Spotlight".

Also, Mr. Barger has stated that, to take into consideration those three to ten students who couldn't bowl in the league, another league could be started in the mornings. Only 12 people would be needed for a league to be able to get underway. All students interested in a morning league are urged to contact Mr. Tommy Barger at the YMCA, anytime, for information. Mr. Barger would really appreciate a good turnout for the other league also, so let's get bowling!

Win \$10

Just pick a mascot for our school.

Fill out this form and turn it in to Mrs. Nevel (across from the registration office) not later than 4:00 Nov. 7, 1966. The best name wins.

Five finalist names will be picked by a committee, and the student body will vote on these. The prize will go to the first one who has turned in this name.

Roving Reporter

Our Roving Reporter stole through the school confronting these happy people with this question:

If you had \$1,000 to spend in ten minutes, how would you spend it?

John Strawbridge, Archt. Technology Pay my bills, use some for car and travel expenses, maybe give some away.

Chet Williams, Technical Illustration, "First I would make a down payment on a 1967 yellow Vette with black interior. Of

course I would keep my old one, 1962 Vette.

Kurt Yost, Mechanical Draft. "Give half away to world funds, and with what's left I would buy a new car.

Don Dehoff Graphic Arts.

I would spend fast. Are you guys serious! I guess I would get a new fender for my car

and what's left I would spend on clothes.

Linda Barno, Library Associate Down payment on a Mustang and what is left on clothes and shoes.

Debbie Foresman Library Associate Plane ticket to New York City, and one to Hawaii also. Then I would buy a cocktail dress.

Spotlight

Vol. 2, No. 4

THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

November 22, 1966

Dr. Carl Installed as President

Dr. Kenneth E. Carl was officially installed on November 10, 1966, as president of the Pennsylvania Rehabilitation Association in Pittsburgh.

The principal speaker at the association's annual meeting was Dr. William Gellman executive director of the Jewish Vocational Services, Chicago. Dr. Gellman suggested two important changes in the rehabilitation services in Pennsylvania. The first is a non-competitive work system which would assure all vocational clients of "services" in the rehabilitation process. The second would call for the free selection of rehabilitation services by the client himself.

Dr. Gellman said, "With clients free to choose among services offered by a rehabilitation agency on the basis of cost and value, each client will have the opportunity for self-determination. As he learns to judge the value of service and to exercise independent decisions, he acquires the inner motivation which makes rehabilitation effective."

Accreditation Gains

Spring, 1968, was set as a target date for accreditation of the Williamsport Area Community College at meetings held on the campus on Monday, November 3, 1966.

Dr. Finla G. Crawford, Chancellor Emeritus of Syracuse University and Advisor from the Middle States Association, met with President Kenneth E. Carl and members of the Board of Trustees, to discuss progress to date in meeting requirements for accreditation

WACC Receives Endowment

For the first time, WACC has an endowment fund.

John J. G. Deemer, president of the Williamsport National Bank, has announced the establishment of the fund on a grant of \$5,000 by the bank's board of directors.

Announcement of the fund came as a surprise to Dr. Carl, who said the school itself had been urged recently by the Middle States Commission on Institutions of Higher Education to set up a fund. The commission is an accreditation agency for colleges and high schools.

Mr. Deemer said the bank's trust department will, as trustee of the fund, invest the principal and annually turn over the income to be used at the discretion of the board of trustees of the college.

Funds from the endowment will be used primarily to provide scholarships for worthy students from the area and for supplies that the college might not otherwise be able to obtain.

Shown discussing long-range goals of The Williamsport Area Community College are left to right: Assistant Professor James P. Bressler; G. Kent Hawks, representing Perkins and Will Planning Consultants; Dr. Kenneth E. Carl, WACC President; and Assistant Professor, Jack Deibert.

Consultants

G. Kent Hawks, Project Architect from Perkins and Will, consultants to the Williamsport Area Community College, spent October 27, and 28, 1966, at WACC to make studies related to long-range planning for facilities at the college.

The consultants have been retained to prepare a comprehensive master plan for the physical facilities that will be needed by the college to provide the best possible service to meet area industrial needs, educational and cultural requirements of the communities served by the college, and the educational needs of the individual students attending the institution.

Mr. Hawks has been meeting with the chairmen of a score of faculty committees set up to evaluate the future academic goals of the college. Areas of interest being investigated include: the newest methods of instruction including audio-visual aids and computer assisted instruction; vocational needs of area industry and equipment necessary to meet those needs; administrative and faculty goals; specialized scientific laboratory requirements; assistance to area high schools; and aid to community and area cultural programs.

Vacation

The doors of the Williamsport Area Community College will close at 10:00 p.m. on November 22, 1966 for Thanksgiving Vacation. As the hallowed halls of WACC rest in tranquility from Nov. 23, to November 28 inclusive, the students, who normally keep these halls alive, will be off somewhere enjoying the first real vacation of the fall semester.

We are looking forward to seeing many of them, however, at the Penn State Campus in DuBois, Pa., on November 26 for the first varsity basketball game in the history of WACC. This is a new team in a new school, and they need your support. Get out to the game, and don't be afraid to cheer. People don't say anything about a loud cheering section, but listen to them talk about a quiet one.

Wherever your travels may take you, exert every effort to drive carefully. Don't be among the missing when classes resume at their normal times on Tues. Nov. 29, 1966.

Computer Goofs

When the electronic monster in Data Processing typed out the Summer School Dean's List, it missed Dick Kuchta of Tool Making Technology. Dick had a 3.6 average.

One of the many meetings held on Accreditation gains

SUPPORT OUR
BASKETBALL TEAM

Lattman Lecture

On Thursday, November 3, 1966, at 8:00 p.m. in the Rec. Center, a group of approximately 200 students and faculty members attended what may be the most exhilarating and brilliant lecture ever to be presented at the Williamsport Area Community College. The lecture, entitled "The Evolution of Science," was presented by Dr. Laurence Lattman, professor of geomorphology at Penn State.

Being one of those few men in the United States today, who has the outstanding ability to couple a strong persuasive voice with a sincere belief of and interest in science, Dr. Lattman held his audience spellbound for approximately one hour. During that hour, he implanted in the minds of his spectators the development of mathematical physics and the scientific method, from the ancient Greeks to our modern society.

The lecture, which touched upon the developments of such great men as Archimedes, Newton, Galileo, and Einstein was oriented to illustrate the fact, as stated by Dr. Lattman, "if you've got it, you've got it, and you'll keep it. If you haven't got it, don't sit around waiting for it, it'll never come." As the audience filed out of the Rec. Center after the lecture, the general consensus of opinion, concerning the lecture and Dr. Lattman, appeared in a variety of one word statements - tremendous, marvelous, wonderful, excellent - just to mention a few.

Spotlight On The Faculty

H. M. Mac Mullen, Henry C. Moonschein, Jr., Wendell A. Woodside, and Sloan O'Donnell, of the English department, attended the semi-annual meeting of the Pennsylvania Chapter of the College English Association held November 4 and 5, at the Penn Harris Hotel in Harrisburg. Principal speakers were Dr. Henry H. Adams, professor of English at the United States Naval Academy, and Dr. Maxwell H. Goldberg, professor of English at Penn State Henry C. Moonschein, Jr., instructor in speech and English, has been honored by having an article included in the scholarly "Notes and Queries" published by the Oxford University Press of London. Mr. Moonschein's work is based on critical comments of Webster's play, "White Devil", a Broadway success of last season.

James Logue, Charles Simcox, and William Morris attended the Sixteenth Annual Conference of the Department of Higher Education of the Pennsylvania State Education Association at the Penn Harris Hotel, November 4 and 5.

Foreign Student

Today, in this country there are an ever increasing number of foreign students. These students have come to this country not only for self-improvement of their education, but also to better serve their home lands and people. One of these students is Felcade Zemichael, a student at the Williamsport Area Community College.

Felcade was born in Addas Abba, the capital of Ethiopia. He is one of fourteen children, having twelve brothers and one sister. Felcade's father is the general director of a Mineral Bath Spring.

He is studying electronics at WACC on a scholarship sponsored by the United States. He feels that through scholarships "very, very, good relations" will develop between the United States and other countries. Mr. Zemichael said he felt that, anyone who has the opportunity to study in the United States could not help feeling grateful to this country for the advantage of learning here.

There are many surprises in the life of a foreign student, as Felcade soon found out. As his plane landed in New York, Felcade observed that the entire country appeared to be painted white. After landing, he soon found that it was not paint, but snow, an element strange to the country of Ethiopia. Menues provided further confusion to Felcade, as he found that they listed dishes and sandwiches strange to his native land.

Mr. Zemichael feels that there is much to be gained from his being in this country. He explained that in his country the people do not have the determination to keep trying if they fail on their first attempt. He was surprised to find many of the students in this country working and going to school at the same time. In Ethiopia, he explained, a student would not think of working while going to school.

Felcade feels that there is much for his people to learn, and he hopes to be able to help them through teaching when he returns to Ethiopia in June.

Felcade stated that his country is a country of traditions, many of which are good and some of which hold them back; however, he feels that Ethiopia is on the climb, and that with a little help the country will grow.

With Felcade's determination to help his people, he is bound to be an inspiration to his country. If all the people in the world were willing to try so hard to help others to help themselves, a better understanding of man and peace could be the only net result.

Answer

Answer to brain teaser - five and three quarter inches.

Class Rings For School Lassies

The book store has had occasional inquiries concerning class rings for co-eds; however, Mr. Magee will not have the manufacturer prepare the necessary dies unless there is a definite demand for such rings.

Women students who may be interested in getting class rings are asked to leave their names with Mrs. Nevel in the office across from the registration office. The rings will cost about thirty dollars.

PLEASE NOTE -- turning in your name is only an expression of interest, not a commitment.

Exterior of Library

Library

Only at the Williamsport Area Community College does a student have the unique experience of checking library books out of a Laundromat--well, not exactly. Because of the inadequacy of the Williamsport High School library for use by college students, school officials have leased a building on West Fourth Street next to Tops-All Store to serve as a temporary library, until a new building can be erected.

The structure which formerly served as a laundromat fills its purpose quite well, its only shortcoming being its lack of size and perhaps a slightly noisy heating system.

The library is looked after by Mr. Andrew Spuler and Miss Laura Coleman, librarians, and three part time clerks who are responsible for cataloging the thousands of books necessary for a growing college.

The library, which receives five percent of the college budget, currently has over four thousand volumes, not counting books which are not catalogued or are in storage. There are also over one hundred magazines, covering all topics, on hand. In addition, there are ten different newspaper, both domestic and foreign.

Other facilities to be added, besides more book shelves, are tape recorders and record players with individual ear phones, a collection of classical records and plays, and a microfilm reader which will be placed along the south wall.

New Engines

The diesel shop has recently acquired two new Caterpillar V-12 diesel engines. These engines weigh about 12,500 lbs. each. They have a bore of 5 3/4 in. and a stroke of 8 in. Each engine develops 500 horsepower at 1200 r.p.m.'s with the aid of a large supercharger. The approximate market price of these engines is between \$25,000 and \$30,000 depending upon the equipment ordered with it. These engines have various applications; they are used in draglines with a maximum load of 6 cubic yards, irrigation water pumps, auxiliary generator plants and well drilling rigs with depths up to 7,000 ft.

Balloon

This balloon was flying high over Unit 6 this week in advertisement of the Fall Weekend. Frank Hubble, from Computer Science, chairman of the advertising committee, was in charge of the launching.

Bookstore

Hey friends, have you been to the bookstore lately? With Christmas just around the corner, you should start thinking about a gift for that special someone. The bookstore carries a complete line of tie clips, bracelets, cuff links, charm bracelets, jackets, shirts, and mugs to make your shopping a little easier. Also while you're there, order your college class ring.

The bookstore welcomes your visit at any time they are open. The bookstore is open daily from 8:30 a.m. to 4:30 p.m., except for lunch from 12:00 p.m. to 1:00 p.m. Evening hours are Monday and Wednesday from 6:00 p.m. to 8:00 p.m.

Halloween

On Wednesday, October 26, the Practical Nursing students held a Halloween party at the college recreation center. Everyone who attended the party was dressed in

a typical Halloween costume. Entertainment for the party was provided by records. Cider and Donuts were served as refreshments and an enjoyable evening was had by all.

THE WINNERS-Left to right: Ann Louise McCarty-Most original for nursing profession, Gail Puderbach-Longest tail, Nancy Wesner-Prettiest, Pat Harris-Best dressed, Mary Knittle-Best scare crow, Marie Roth-Best Pregnant, Mary Artly Fattest, Mrs. Morris-Most original, Penny Wood-Fantasy, Mary Dugan-Best Ghost, Sharon Yordy-Dantiest, Barry Crawford-Most aggressive.

Hello Big Boy!

Haireuts

Darl Weckerly, a Mechanical Drafting student, has a new sideline. He is our campus barber. Darl was an apprentice barber for five years in his home town of Clarion, Pa. Haireuts are being given by Darl in the Rec. Center every Monday and Friday from 6:00 to 10:00, Wednesday from 3:00 to 10:00, and on Saturday afternoons.

The price is only a donation to Darl for your evaluation of his work, which is superb.

Brain Teaser

Over the top of a fence is placed a rope, the same amount on both sides. The rope weighs one third lb. per foot. On one end of the rope hangs a monkey holding a banana, and on the other end is a weight equal in weight to the monkey.

The banana weighs two ounces per inch. The length of the rope (in feet) is equal to the age of the monkey, and the weight of the monkey (in ounces) is equal to the age of the monkey's mother. The combined ages of the monkey and its mother are thirty years.

The weight of the banana plus one half the weight of the monkey is one fourth as much as the sum of the weights of the weight and the rope, where all weights are in the same units.

The monkey's mother is one half as old as the monkey will be when it is three times as old as its mother was when she was one half as old as the monkey will be when it is twice as old as it is now. How long is the banana?

The answer to the problem can be found on page 2.

DANCE

The second dance, sponsored by the Architectural Club, was held on November 9, in the Rec. Center. T. C. & The Bel - Airs provided the music for the dance.

Rally

The Architectural Club had another rally, the Sandman Night Rally. It started from Good's Sports Car Rally Center on Third St. at 10:00 P. M. Saturday night November 5. The rally ended at the Iron Skillet Restaurant, Rt. 15 south, about 2:00 a.m.

The winners of the first three places are from WACC: Bill Ealer-instructor of Architecture - First Place, Brad Hengst, Arch., and his wife - Second Place; Kathy Jubik, with John Holdose, from Technical Illustration, navigating - Third Place.

WACC Basketball Schedule

DATE	DAY	OPPONENT	PLACE	TIME
Nov. 26	Sat.	Penn State at DuBois	Away	3:00 p.m.

Anna-lyst

Dear Anna,

My boyfriend's hair is longer than mine. This is giving me a complex. What can I do?

"Cher"

Dear "Cher",

Introduce him to his mirror image-an ape! If he doesn't take the hint, introduce him as your sister.

Dear Anna,

When my girlfriend and I go out, she takes off her shoes and insists on putting her feet inside my pant legs. Now that's a very romantic thing for her to do, only her feet are like ice. Br

"Artic Andy"

Dear "Artic",

Either have Mr. Clause bring her wool socks for Christmas, or buy yourself knee-length support hose.

Dear Anna,

How does a girl get a boy to notice her?

"Rejected"

Dear "Rejected",

Sometime when both of you find yourselves standing on the same street corner, throw yourself in front of a Mack truck. If he doesn't notice you, hang it up!

Dear Anna,

How does a boy get a girl to go to the Fall Weekend?

"Absentee of the Spring Weekend"

Dear "Absentee",

There are different ways for you to fill this dent in your future. Choose one of the following: Put a knife to her throat and threaten her; drug and kidnap her; hit her over the head with a club and drag her there; or lie to her and say you're taking her to the Lycoming Hotel. Otherwise, you may have to resort to politeness and perhaps beg.

Spotlight on You

Earl M. Keen-Machine Shop-became engaged to Sharon Lavaghi Crissman. Both Earl and Sharon are from Jersey Shore. Larry Muehl, a graduate of WACC from Graphic Arts, now employed by H.R.B. Singer in State College, became married, on October 22, to Judith M. Crissman from South Williamsport, Pa. Larry's home is in Erie. Gary Lee Bridlespacher-Computer Science-is engaged to be married to Sandra Lundy. Gary and Sandra are both from Wmspt.

Jerry Hunsinger, a student in Machine Shop, became engaged to Dale Arlyne Turner of Austin, Pa. Jerry is from Wharton, Pa. Earl F. Herriman, a graduate from Business Administration, became engaged to Jane Cronin. Jane is from Wilmington, Delaware.

Linda Sumar, brunette cutie in the Business Office, became Mrs. Richard Fischer on Saturday, Oct. 29.

A typical scene as donors wait to give blood at the WACC Student Government sponsored Bloodmobile visit at the Central Baptist Church on November 9, 1966.

Roving Reporter

Question: What other activities would you like to see in this school?

more clubs and organizations. Just anything to join would be good.."

Galen Stump, Architectural Tech.

"Anything in the line of jazz, folk, or modern concerts by well known groups. Maybe

organizations. Just anything to join would be good.."

Kevin Snell, Liberal Arts.

"Let me think of a good one. I liked the one about the \$1000 better. More dances, rallies and

organizations. Anything where the school can participate as a whole."

Mike Gabriel, Tool Design.

"More dances, maybe a football team. Jazz or hand clubs. Maybe we could have the

Ladins Jazz group here some time at one of the dances. Fraternity."

Aggie Kittle, Liberal Arts.

"I think the biggest thing anyone could do is to support the ones we have. I would like to see

more dances, clubs for the girls, even though we are considered a minority."

Jerry Forbes, Engineering Draft.

"First I would like to see a fraternity. More sports like wrestling. More campus life in general. How about a cleaner floor in the drafting room."

Eva L. Hemesky, Liberal Arts.

"What do you mean, that will be censored? Well I think most of the girls would like to

have a sorority of some kind. More dances and girls' clubs-like a language club."

Basketball

As the college football season throughout the United States comes to an end, young people's thoughts turn to the next sport in line--BASKETBALL. When mentioning basketball around WACC, one might wonder what our new Varsity team is doing. So, the SPOTLIGHT sports department ambled over to the Third Street Gym to take a look-see.

Coach Burdett has narrowed the team down to an active roster of fifteen men, who have been practicing very actively for the last few weeks in preparation for the pre-season scrimmages lined up by the coach. The first of these was with the Lycoming College Frosh, but unfortunately our boys came out on the short end. Although they didn't win the experience they gained was well worth the effort exerted.

Coach Burdett also stated that he is optimistic about the upcoming season. The team needs more work, but we're sure that when the seasons starts, the WACC varsity will be ready for all competition.

As is true with any team, our basketball team needs your support. Get out to the games and cheer. Let's show the boys we're behind them one hundred percent. Strike up that spirit that has been so long quiet at WACC.

Bowling

The Bowling League for students is well under way. Mr. Barger says that the teams are well matched, and that there are quite a few good bowlers in the league. It seems that no one team stands out⁽¹⁾ individually, and that fact alone explains why the first three teams are only separated by one game in league standings. The league will surely bring surprises into the standings for each match, and we think that the bowlers should be congratulated on the fine jobs they are doing.

For the games on November 10, two boys bowled over 500 for a three game series. Mike Pura had a 529 series and Charles Zerbe had a 511. On the feminine side, Barb Reed had a 310 series with a high single of 129.

Mr. Barger, who is well pleased with the 10 team turnout for the league, expressed the desire to start a league for the night shift gang. As was stated in the last issue of the SPOTLIGHT, it only takes twelve people to start a league. Anyone interested in bowling should see Tommy Barger of the YMCA anytime for information. Remember, it only takes twelve people to start a league, so talk to your friends and get a second league going to make things interesting.

THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

February 23, 1967

Paintings Presented

Mrs. Harold J. Strochmann Jr., chairman of the Brandon Park Cultural Committee of the Williamsport Recreation Commission recently presented the two prize winning paintings of the art show held in the park this Summer, to Dr. Carl. The paintings will be a permanent loan to the Williamsport Area Community College. These valuable art works will hang in our college library.

Each year the prize winning paintings of the art show will be added to the collection on loan. Eventually the committee hopes to have every major Williamsport artist represented. The collection which will be the permanent property of the college, will be available for temporary loan to area schools and libraries.

The above is a picture of the student parking lot at the rear of the Administration Building as it appeared before reconstruction. Below is a picture of the same parking lot after it was reconstructed.

Editorial Board Turnover

As is true with many of the organizations at WACC, graduation has paid its toll on the SPOTLIGHT staff. The only remaining member of the Editorial Board is Tom Bender, the Managing Editor.

Those new members of the Editorial Board who were appointed by the outgoing editors at the last Board meeting of the Fall semester include: Jane Cervinsky, Make-up Editor, Agnes Knittle, Administrative News Editor, and Sharon Salvatori, Feature News Editor. The position of Student News Editor still remains open.

Each member of the Editorial Board, who must maintain a 2.0 cumulative average, is elected for a term of one year, or until a new editor is elected to replace him by a two-thirds majority at a general staff meeting.

Hours For Rec Center

Sunday 1:00 P.M. to 5:00 P.M.
Monday 3:00 P.M. to 10:00 P.M.
Tuesday 3:00 P.M. to 10:00 P.M.
Wed. 3:00 P.M. to 10:00 P.M.
Thursday 3:00 P.M. to 10:00 P.M.
Friday 6:00 P.M. to 10:00 P.M.

We Will Pay You

The Pennsylvania State University, in cooperation with W. A. C. C., is conducting a research and development project in Computer Assisted Instruction (CAI). Two teaching terminals have been installed at WACC. Each terminal consists of a two way typewriter, a slide projector, and a tape recorder. This equipment is connected by logn distance telephone lines to an IBM computer on the Penn State campus at University Park. A number of short courses have been programmed on the computer. These courses have been designed especially for students in vocational and technical education. The course is presented to a student by means of the typewriter, slide projector, or tape recorder. A student may be given information, problems, or questions, and asked to respond with the correct answer by typing it on the terminal. The computer then evaluates the student's answer and types back indicating whether it was correct or incorrect. In this way, the computer

presents a course of instruction to the student.

CIA is a very new development in education. Like most new technological developments, CIA must be properly tested and evaluated to see whether students can learn efficiently by such a procedure. Naturally, to conduct such an evaluation we need the cooperation of students in technical curriculums who would be willing to try out some of our courses. We are asking you to help us with this evaluation.

The project is in a position to pay each student a small salary for his participation. Each student receives the same amount for his participation. Here is a way by which you can obtain additional technical instruction in the form of short courses and get paid for doing it. But, more important, you will be helping us in the research and evaluation of this method of instruction.

We are in immediate need of approximately 100 students. If you are interested, sign up immediately with the CAI proctors at the CAI lab, Unit 6 (adjacent to the nurses office), any day after 3:00 p.m.

Government News

Schoolwide elections were held January 16, 1967. The nominating committee made up of Sharon Salvatori, Larry Schiellen, and Chuck Pagano, former President of Student Government, selected capable candidates. Names could also be submitted from the Student body by the presenting of a petition with at least fifty signatures to Mr. Heimey by Thursday, January 5, 1967.

The results of the elections were as follows: Mike Minatelli from Aviation, President; Larry Schiefen from Electrical Construction, Treasurer. The office of Vice President is now vacant since the winner is no longer here, and the runner-up has declined. The election for Vice President will be held within the Student Government.

This was the first try for a purely democratic election. A school-wide election has its drawbacks in a school as diversified as ours. So many complaints have been heard to the affect that—"We didn't even know any of the candidates." It is difficult to get all the students together for campaign speeches, so the best a candidate can do at this time is to come to the students.

We do not have all the answers, but support from you as WACC students will make your Student Government work now and better itself in the future.

Good Grief

The Special Events Chairman would like the names of anyone who wishes to assist in organizing Spring Weekend activities. We are going to make this weekend a big success, so give your name to your Student Government Representative now.

Also specify what area you would be interested in: decorations, entertainment, publicity, tickets, refreshments, or housing.

Coming Events

Feb. 23, Practical Nurses Class No. 7 Graduation
Feb. 25, BB Lycoming College Frosh at Lycoming
Feb. 28, Applied Arts & Sciences Faculty Meeting

Interested

The following series of messages and letters was received recently by the Editor of the Spotlight from Dr. Carl:

"I received the following communication from a group called, 'Interested Students'. I wish to commend this group for their initiative and the college spirit which prompted them to write to me.

Normally I do not answer mail which does not have a signature. It is my feeling that anyone who has something to say about a subject should be willing to be quoted as the author of the remarks and be responsible for the contents to all persons for such praise and/or criticism as may be made of his remarks. With any such freedom of expression in our society, must come responsibility.

I am assuming in this case the lack of signature and address was overlooked; and since I feel the comments may be shared by a number of students, I shall use the medium of the SPOTLIGHT to reply.

Dear Dr. Carl:

Is there any reason why there wasn't anything about our "Fall Weekend" in the Sun Gazette or the Crit?

We feel that the college needs some publicity! A lot of people have the impression that we never do anything. Well, they're wrong, and we want them to know it.

We were also surprised that there wasn't anything about our Fall Queen. That was an honor to her, and it should be recognized as such.

We are not trying to find fault but shouldn't something be done?

Sincerely yours,
"Interested Students"

Dear Interested Students:

The only reason I can think of as to why our "Fall Weekend" was not reported in the Sun Gazette or the Crit is that no one took the initiative or had the assignment to report on it. Everyone, including myself, assumed the other person would take care of it.

I agree our public relations need improvement and I have recommended to the Board of Trustees at the January meeting, the employment of such a person. This will be part of the assignment of a public information and placement officer.

It certainly was too bad that our lovely Fall Queen and the other nominees were not given the publicity they deserved. I hope the SPOTLIGHT will make some amends by giving them due recognition.

Until such time as we do have

someone on an assigned basis, please call attention to any news items which warrant further publicity to Mr. Sloan O'Donnell, who will do what he can to report them to the various news media.

Sincerely yours,
Kenneth E. Carl
President

To Err Is Human

"To err is human; to forgive, divine." Yes, we goofed up on getting articles in the local papers concerning "Fall Weekend". We did err, and we hope you will forgive us.

Better still, you can help us improve the situation immediately. We have the authorization to hire a student to help us in Public Relations, but we have not yet found someone meeting our requirements who is willing to serve the school and the student body.

Requirements: Must be pulling an "A" in English; must be able to type, even if only "hunt and peck"; must have free time preferably night and day, totaling twelve hours per week; must be able to show financial need.

The person should have a genuine liking for learning more about public relations work; and having some shorthand ability would be helpful. The successful candidate will be trained in photography.

Perhaps the author of the unsigned letter to Dr. Carl will volunteer; he meets some of the requirements -- the letter was well composed and typed! If you wish to volunteer, see Mr. Heiney in the Registration Office.

College News Service

Are You College Students?

Or what are you? What have you done to forward student unity? How many times have you voiced your opinion at a student government meeting? How many basketball games have you attended? How much school spirit do you have? Do you care about the college!

I've sort of a personal gripe with you. I have the job of Student News Editor of the "Spotlight", and if you will recall, it has been some time since the last issue. Do you know why? Well, for a college with a student body of more than 1,700, one would think that there would be enough action going on to fill a paper the size of the "Spotlight", every week without any sweat, but there isn't. This paper is a service to you the student, but do you care? Do you use it? No!

There would be a paper every two weeks, at the least, as we would like. Does anyone ever find out what goes on in your department? No! There are people who would like to know, but will never find out if you don't get off your ... and let them know. The "Spotlight" is sent to most of the community colleges and junior colleges in Pennsylvania. I am sure they would like to know what we do.

WACC is very young as a community college as it can only grow as fast as you, the student. Several weeks ago a picture was taken of a certain department who had almost 100 percent participation in the Blood Mobile. The picture was to be printed until we saw the childish little hand gestures scattered throughout the group. Is this what a college student looks and acts like? I don't think so.

Think it over. Think about it the next time you slide back to that decrepit old rooming house and crawl into that broken down bed, you have been resting all year long? Think about it the next time a few of you jump into a gig greasy auto and burn downtown to chase girls until you can't find any more. Think just how mature you are. What did you do to get dorms built in place of those rooming houses? How many school activities have you participated in? What do you do with all your spare time? Did you ever jot down your gripes and give them to your student government representative? Did you ever write a letter to the Editor? Did you ever report anything that happens in your department, to the "Spotlight", or doesn't anything ever happen? PEOPLE MAKE NEWS

Brad Hengst

Letter To The Editor

dear editors and chiefs of the student news paper;

for several years i live in this building, i have often been called the teck rat and justly so because i am a rat. however now that the school is no longer a technical institute i feel left out, some people even tell me that i should leave never to be heard of again. i realize that a rat is not the most gracious of creatures but i like it here and feel that since i have been here so long that i should not be kicked out. to my knowledge i have never hurt anyone though i have been seen many times and missjustly called a mouse because i am a very very small rat. please reconsider and do not evict me i love it here.

yours truly
tech. rat

Think Big

Due to the graduation of approximately one-third of our staff, we now have numerous openings in all fields. We need editors, typists, proofreaders, writers, and layout people just to mention a few.

If you feel that you can fill any one of these positions and you would like to perform a service to your school and fellow classmates please contact the newspaper office at the rear of Unit 6. If you should find no one there when you call, kindly write your name and address on a slip of paper and tack it to the bulletin board in the SPOTLIGHT office

FALL WEEKEND

WACC's Fall Weekend hit the school with a bang! Seventy-three cents purchased the ticket for a jam-packed, fun-filled weekend.

Friday night started the ball rolling with a battle-of-the-bands. Three local bands fought tooth and nail till the end, then were judged by "Elmo" our electronic applause-o-meter.

Showing their style in the above picture are the New Generations who won second prize. The Septers walked off with \$100 for winning first place. Third place was taken by the Jesters.

Saturday started off quite early for the decorating committee. They met in the gym at six o'clock a.m. This was an all day project for the decorations weren't completed until five-thirty p.m.

Later in the morning a group of fellows went to Trout Pond Park to stack the wood for the ox roast. A scavenger hunt was then held for those students who had time on their hands during the afternoon

To those of you who are wondering about the beer bottle--it's being used strictly as a prop, not a refreshment.

Mike Manatelli and his wife captured first place by gathering

up all the odds and ends listed on the sheet of instructions. The paraphernalia listed on the instructions ranged from a clothes hanger to a white rat in a cage.

Highlighting the weekend was the semi-formal dance and crowning of the Fall Weekend queen Saturday night. Music for the evening was provided by the Caravellas. Refreshments, served by the student nurses, consisted of punch, and hors d'oeuvres (pretzels and potato chips).

They played the old songs, they played the new, they played the fox trot and the watusi too.

Ten girls representing various departments of the school, vied for Queen of the Fall Weekend.

Left to right are:

Miss Salvatori, Liberal Arts; Miss Mackowiak, Business; Miss Knittle, Liberal Arts; Miss Boyle, Liberal Arts; Miss Russell, Liberal Arts; Miss Harris, Student nurse; Miss Dugan, Student Nurse; Miss Keiser, Business; Miss Tresiak, Business; Miss Brown, Business.

The final decision was reached by the judges after observing the candidates throughout the evening. Second runner-up was Miss Mackowiak, first runner-up, Miss Keiser. Miss Brown was then crowned by Dr. Carl as the 1966 Fall Weekend queen.

Standing on the sidelines, observing the coronation, is the master of ceremonies, Fall Weekend chairman and everyone's friend, Russ Gerbino.

Miss Brown was presented with a crown and one dozen long-stemmed red roses. She and her escort then led off the Queen's dance and the other candidates then joined in.

Sunday began with a chapel service at 10 a.m. in the YWCA's chapel. Father Kelly of the Ascension parish and Dr. Rhoads of Lycoming college were guest speakers. This was the first student church service held by the school and it is hoped that each year will

bring more participants with it.

After a change of mood, the students headed for Trout Pond Park for the now traditional ox roast. The weather was a bit chilly but the atmosphere and the student's enthusiasm helped to keep everyone warm.

A highlight of the afternoon was the sky diving exhibition by three parachutists from the Bald Eagle Sky Diver's club at Penny Hill airport. The first jump was made at 4,500 ft. The drop zone was located behind the Trout Pond picnic area. The second jump was made by the other two parachutists at 8,000 ft. The pictures below show Chuck Pagano, student council President, making one of the jumps.

Chuck undershot the target and landed in a muddy cornfield instead of the chosen soft meadow. Coming to his aid are Steve Bodiger and Frank Hubble who helped him untangle his parachute which got caught on some barbed wire as they were carrying it across the field.

Next in everyone's mind was food, and there was plenty of that. Sam Kepner supplied the ox and kept the twenty-four hour vigil.

Con't. on page 4

Fall Weekend

Con't. from page 3

The above students are standing in the chow line waiting to be served the variety of foods. In addition to ox roast sandwiches there was baked beans, potato salad, macaroni salad, a relish tray and a variety of soft drinks.

This picture shows the students heaping their plates with the delicious food and many of these same people came back for second and third helpings. Much food, nevertheless, was left over and was contributed to the Salvation Army and the Mary Slaughter Home for the aged.

After eating, comes relaxation and that's exactly what The Villagers, a group of college students, provided. The folk sing aroused the interest and voices of all who attended and put a final climax on this year's Fall Weekend.

WACC students are great manufacturers. Some make good, others make trouble, most just make excuses.

OOPS! An unwanted fixture in the new science labs at the rear of unit six.

Sports

WILDCATS WIN AT DUBOIS

The WACC Wildcats opened their 1966-67 basketball season with a blazing 90-57 win over the Penn State Center at DuBois Saturday, November 26, 1966.

The Wildcats got off to a fast start and led throughout the game with Bill Collins at the controls. Leading by 12 at halftime, 35-23, WACC quickly put the opener out of reach when they returned to start the second half.

Top scorers were Wayne Miller with 19, Bill Collins with 16, Bob Carpenter with 14, and Ray Kimberly with 17.

As a team, the Wildcats connected 35 times from the field while holding Dubois to just 21 field goals.

The opening tap of the first Wildcats home game.

WACC FALLS TO BLOOM

WACC lost its first home game to the strong Bloomsburg State Frosh by a score of 70-43 before an estimated crowd of 500 on Thursday, December 1. The loss evened the Wildcats record at 1-1. With Ray Kimberly sidelined with injuries he received in an auto accident, the Wildcats just couldn't overcome the strong Bloomsburg squad. WACC lost the ball 23 times and was outrebounded by Bloom 52-36. While Bloom racked up 31 field goals, the Wildcats only pushed through 15. WACC went to the locker-room at half time trailing 30-20.

The only WACC player to get into double figures was Bob Carpenter with 10 points. Bill Collins and Larry Miller each chipped in with 6 points while John Wooster and Wayne Miller added 4 apiece.

WILDCATS WIN NO. 3

The Wildcats won their third game December 13, by defeating the Williamsport School of Commerce 73 - 60 on WACC's home court before an estimated crowd of 400. WACC extended its record to 3-1 by handing the School of Commerce their first loss of the season.

Led by Scott Taylor who pushed 11 of the Wildcats, first 15 points through, WACC walked away with a 35-20 first half. Their excellent style of play and some tremendous board work by Wayne Miller appeared to be too much for the School of Commerce to overcome.

The Wildcats connected 30 times from the field while Commerce only pushed 21 through. High scorer for the game was Bill Collins who had 18, and was helped out by Bob Carpenter and Scott Taylor with 15 apiece. Wayne Miller and Roland Hobbs each helped out with 9 points, and Joe Opetosky had 6.

Hobbs shoots for two as Carpenter moves in for the rebound.

WACC DEFEATS KEYSTONE

The WACC Wildcats showed their great comeback power and ability to play under pressure when they handed Keystone Jr. College an 85-83 defeat at Keystone Saturday, December, 3.

WACC led by Bob Carpenter got off to a good start taking an early lead, but lost it midway through the first half, only to come back and take a 35-29 lead at halftime.

Bill Collins made a nice three-point play followed by a field goal from Joe Opetosky to end the game. The fine shooting at the foul line, 23 for 29, saved the game for WACC as Keystone outshot the Wildcats from the field 33-31.

Collins led all scores with 27 points as Joe Opetosky chipped in with 15, Larry Miller with 12, and Wayne Miller with 11. Hobbs added 7, Bonislawski 6, and Scott Taylor, 5.

SUPPORT OUR BASKETBALL TEAM

WACC LOSES TO CORNING

Corning Community College handed WACC a 75-61 defeat after a three week lay-off for the Wildcats. Getting off to a slow start the Wildcats were just unable to overcome the Corning 38-21 lead at the half. The loss brought WACC's record up to 3-2 for the season.

Scott Taylor led the scores with 14 points as Bill Collins added 9. Joe Opetosky and Dan Cumberledge each chipped in with 8, while Wayne Miller, Roland Hobbs and Bonislawski each added 5 to help with the final tally. Ray Kimberly contributed 3, as Larry Miller and Bob Carpenter pushed in 2 apiece.

Notice

ATTENTION CLUBS AND ORGANIZATIONS. Have you elected officers? Are you putting on a bake sale? Are you having a rally? Did you take a trip? Would you like the rest of the student body to know what you're doing? If you would, it's quite simple you know. Just nominate someone in your organization to act as a publicity officer.

It would be his job to see that the SPOTLIGHT is contacted (Student News Staff), and we would see that you get the required space in the paper.

Spotlight On You

Don "Bad LUCK" Martin of the Business Department is nursing a fractured rib received playing football during the Thanksgiving vacation Craig Wert, of Graphic Arts, banged up his '55 Chevy and himself recently. Craig will recover -- the car won't Joe Reeder, Business Administration, was standing along Route 220 recently and was picked off by a truck moving along at high speed. Joe was thrown clear and luckily escaped with a badly bruised arm. Stan Miller, Architecture, got married to Ginny Paulson from State College, on November 29, 1966. . . Charles Kuhns, Civil Tech, became engaged to Sandy Raymond of South Williamsport, on Dec. 10, 1966.

Our congratulations go out to Chet Williams, a January graduate of the Architectural Dept., who recently married a Williamsport girl, Marlene Moyer. Look what Williamsport brought him. Also our congratulations go to Gary Biedlespacher of Data Processing, who married Sandy Lundy another Williamsport Girl. Congratulations to a man headed in that direction, Dave Williams of Architecture has just become engaged to Cherie Hall.

Sorry Glen! Glen Boens broke his foot last week. How'd you manage that, Glen?

Slave Sale

The bidding went hot and heavy at the slave sale Wednesday night, March 15, but the good humored, sharp witted auctioneer, Wayne Miller, kept affairs moving and well in hand. The sixteen girls sold for an average price of 12.54, a grand total of \$200.73. The proceeds of which will go to help pay for the upcoming Spring Weekend.

St. Patrick's Day was too near at hand, when Miss Alice Murphy, who was dressed all in green, was sold to the highest bidder. All Irish eyes were smiling as the gavel sounded for the third time, and Alice sold for \$60.00.

Among the sixteen sweet things five were sold for fifteen dollars or more. Their day consisted of such tasks as cleaning heavy equipment, putting a canshaft in a motor or answering phone calls.

I am sure that you would all be interested in knowing what our blond, Irish lassie, Alice did for sixty dollars. Well, she answered two phone calls, and she tells me she allowed the fellows in auto mechanics to take her out for dinner.

The prices of the slaves and names are as follows:

Aggie Knittle	\$5.00
Dorothy Kuapik	2.50
Sharon Salvatori	7.50
Ginny Russell	21.25
Norma McLaughlin	4.75
Theresa Phelps	6.50
Mary Madigan	17.00
Carol Grantier	2.00
Evoyan Greenfield	3.00
Laura Hefelfelinger	16.25
Martha Woodburn	7.25
Bonnie Lee Badger	20.25
Milly Fingal	3.00
Alice Murphy	60.00
Randy Bellows	11.00
Donations	4.23

Guidance Counsellors

Twenty-six high-school guidance instructors visited the campus at the Williamsport Area Community College February 22, as part of their training in the SPICE (Special Programs Increasing Counseling Effectiveness) program he-conducted by the Pennsylvania Department of Public Instruction.

The purpose of the SPICE pro-

Cont. on page 3 |

International Get Together

Saturday night, February 21, was the scene of the Brotherhood Week Dinner of the National Conference of Christians and Jews presented by the "Sun-Gazette". International students attending from W.A.C.C. were Mostafa Kamfar of Iran, Teshome Asfan of Ethiopia, Ghulam Ahmadzai of Afghanistan, G. Michel Dessalegan of Ethiopia, Fabriola and Armando Velastegui, brother and sister from Ecuador, Africa, and Nathaniel Chambers of Liberia.

Tuition Rises

At their March meeting Monday March 6, 1967, the WACC Board of Trustees voted to raise the semester tuition rate for full time students from sponsoring districts from \$130 to \$150, and the service fee was raised from \$40 to \$56 per semester.

Until this time WACC's rate of \$130 a semester was the lowest of all the community colleges in Pennsylvania. Even with a \$20 increase the rate is expected to rank among the lowest in semester costs.

Full-time Pennsylvania students from non-sponsoring districts will be required to pay \$300 per semester for tuition instead of the \$260 they are now paying. For out-of-state students the rate will be upped from \$390 to \$450 a semester.

Dr. Carl Receives Letter

Dr. Kenneth Carl recently received the following letter from the secretary of the Administrative Committee at Lycoming College, and asked that we reprint it for the benefit of our students.

"Dear Dr Carl:

In appreciation of the work done by the plumbing class of Williamsport Area Community College in conjunction with the establishment of a coffee house on the Lycoming College campus, we would like to extend an invitation to the students and faculty of your school to attend our coffee house.

"The Ragged Edge" has already been in operation and promises to be very successful. The philosophy behind the coffee house is such that we provide a meeting place for students to express themselves in an air of relaxed spontaneity. In light of this, "The Ragged Edge" is operated by students.

We are open every Saturday night from 7:00P.M. until 2:00P.M. There are four performances. These performance periods are flexible so that impromptu performances are also possible. Refreshments can be obtained for a nominal donation.

Hopefully, the cooperation which has been evidenced between our two schools will be extended to include our coffee house. We will keep you informed of the coming attractions and any other pertinent information.

Thank you again for the help which we received."

Sincerely,
Joan M. Purpura
Secretary
Administrative Committee

Presidents Message

Recently we had the most successful "Open House" ever held here at the College, reflecting in full measure the work of the faculty and student body.

Through the pages of the SPOTLIGHT, I wish to thank all those who participated -- the students and faculty members who helped prepare the many exhibits; the students who guided our visitors; and the students and professors who took part in the panel discussion held in the cafeteria.

Kenneth E. Carl

WACC On The Move

WACC is on the move again. The Board of trustees, at their March meeting, approved the rental of 3,000 square feet of space in the Cluster Building at the foot of Park Street for the use of the Civil Technology and Sheet Metal programs.

According to Dr. Carl, the rental of additional space in the Cluster Building, where the Sign Shop was moved in Sept. 1967, was made necessary by the expanding college enrollment. The sheet Metal Shop which has been located at the college's facilities at the Williamsport Lycoming College Airport must be moved to take care of the expanding sheet metal and aviation curriculums.

Moving the Civil Technology program to the Park Street building will make available one classroom in the Drafting Dept. in Unit 6, and will place the group closer to the area that they use for practical surveying applications.

Transferring

If you have been wondering how our Liberal Arts students have been making out in transferring to other schools, here's the story to date—at least fifteen students have been accepted in a dozen colleges and universities! Included in the list are Northeastern University in Boston; Temple University; the University of Pittsburgh; and the state colleges at Lock Haven, Mansfield, Millersville and Shippensburg.

Cornell Survey

A recent survey by William A. Cornell entitled "Appropriations To Institutions of High Learning" shows that Community Colleges are less expensive to the tax payer than other state-supported colleges and Universities. The figures below include only those dollars provided by public taxes used specifically for the day-to-day operation of each institution. The figures do not include the student's share of expenses paid by tuition nor do they include the cost of new buildings or capital additions.

Institution	Annual Costs
University of Pittsburgh	\$1,713
Penn State University	1,385
Temple University	1,214
State Colleges	803
WACC	520

Released by Dr. Carl's office

So Sorry

The Spotlight staff extends their sincere apology to Miss Connie Brown our Fall Weekend Queen. In our last issue Connie's last name was misspelled Brown.

Roving Reporter

Did you ever wonder what kind of a man it takes to operate one of those huge heavy construction vehicles like you see in the Cannel Cigarettes commercials? The SPOTLIGHT'S Roving Reporter decided to visit the Community College's S&O (Service and Operation) shop on Susquehanna Street to try and find the answer.

Upon entering the shop the first impression one gets is of intense activity. The students are all busy working on one phase or another of maintaining or operating the many and varied pieces of heavy equipment. This machinery ranges from a relatively small 300 pound air compressor to a huge 27 ton crane. Impressive is an understatement to say the least. Although the 45 students of the S&O shop have to study and work in one small and cramped building, the amount of work they complete is outstanding. Everywhere one can see huge diesel engines being rebuilt or 10 ton Caterpillars in the different stages of overhauling and repair. Keep in mind that because of the size of the machinery, much of this equipment is too large to be taken inside the shop. That means the students and the instructors often have to spend hours working or operating equipment in freezing or inclement weather. It takes a tough breed of 100% men to face up to this working hazard, and the students at S&O seem to meet this requirement with plenty to spare.

The two well experienced instructors, Mr. Clyde Brass and Mr. Bill Stitzel, both veteran Navy Seabees, briefed me on what the two-year, certificate course has to offer. The five basic areas of instruction are as follows:

1. Engine Principles
2. Welding Applications
3. Lubrication Techniques
4. Maintenance Theory
5. Operation

Both instructors urged me to pass on to the students and instructors of the College that if they want a job done right, send it to the S&O shop, they will do almost any job, any time.

The students, Mr. Brass informed me, attend classes from 8:00 a.m. until 3:00 p.m., five days a week. Each day is divided into three hours of actual shop work. With this type of schedule, a good student-instructor relationship is a must. The S&O shop is a showcase example of such a relationship. Mr. Brass and Mr. Stitzel are always on hand to offer individual instruction and aid to any student. Also the students themselves are willing to help any of their fellow students should he run into any difficulties.

I gave the S&O shop an A plus in the morale department also. All of them are behind the WACC Student Government 100%, and would

be more than willing to help the college in any worthwhile project. The students in this shop believe that anything worth doing is worth doing right, and while excellence and perfection are their desires, versatility is a must.

Alma Mater

As WACC becomes more and more collegiate, it is befitting, if not necessary, for our school to have an Alma Mater. One cannot imagine Notre Dame without its famous "Fight Song," why should WACC, an institution of comparable potential lack such an important part of her heritage? The answer is she shouldn't.

An Alma Mater would increase school spirit (which could certainly use boosting around here) and also add that "something" which is now missing in our history. Our Alma Mater would presumably be sung at graduation, certain seasonal school events, and on other suitable occasions.

Thus, the need for an Alma Mater being shown, the big question is, "How do we get one?" Traditionally, the Alma Mater is composed by a spirited student or group of students. In keeping with this precedent, your Student Government is soliciting your help. Any ideas for our Alma Mater will be gratefully accepted by any member of the Student Government; or may be turned in at the office of this newspaper.

This is your chance to become immortalized in WACC history, so don't delay.

Temper is a strange thing: it spoils children, ruins men, and strengthens steel.

Students

The SPOTLIGHT was recently requested to publish the following letter to the student body from Dr. Carl:

To the Student Body:

Now that the basketball season is over, may I say "well done" to a tremendous squad of young men and Coach Bill Burdett in achieving a 13-5 season in our first year of intercollegiate competition. With the help of Tom Vargo and Bob Courtney, Coach Bill and his squad have given all of us a sense of increased pride in the college.

May I recommend to you a column entitled "Outstanding Job" printed in the February 27 issue of the "Williamsport Sun-Gazette" which you will find posted across the hall from the Registrar's office. It highlights our season and reflects the pride of the entire area in our accomplishments.

Kenneth E. Carl

Student Chapter

One of the newest organizations on campus is the WACC Student Chapter of the Pennsylvania Society of Professional Engineers. Having established its purpose as better acquainting the members with the engineering profession, the student chapter is directly affiliated with its parent chapter -- the local Susquehanna Chapter of PSPE.

At their first meeting on Feb. 13, 1967, the members elected the following students as officers: Russell Campbell, Civil Tech. - President; Thomas Bailey, Civil Tech. Vice-president; John Ryan, Civil Tech. - Secretary; and Larry Guyer, Civil Tech. - Treasurer.

Carpentry Travels

A recent field trip to the new Masonite Corporation plant in Towanda resulted in an unusual and informative experience for the carpentry students. They saw hardboard or preswood products being made in a modern fully automated plant. The plant, in operation since last March, now at full production, is shipping out 1,000,000 square feet of masonite per day. The whole operation was vast and impressive.

Quality control was in evidence throughout the works as were electronic controls and closed-circuit TV monitors. Only about 200 persons operated this huge plant and most of these were technicians.

The supervisors and personnel who directed us on the tour were most cordial in explaining everything at great length. The tour ended with coffee and do-nuts and a discussion period.

Before returning home the group visited a 50 by 100 foot dairy barn under construction.

The tour was planned and directed by Mr. Grenoble and Mr. Fague, instructors in carpentry.

Awards

A man and his wife, both closely connected to the College, were honored Thursday evening, February 23, at the annual Brotherhood banquet of the Lyscoming County Chapter of the National Council of Christians and Jews, when Mr. and Mrs. C.L. Myers received awards.

Mr. Myers, a local accountant, is a member of the Board of Trustees of WACC, and Mrs. Myers heads the publications department.

ATTENTION CLUBS AND ORGANIZATIONS: Have you elected officers? Are you putting on a bake sale? Are you having a rally? Did you take a trip? Would you like the rest of the student body to know what you're doing? If you would, it's quite simple you know. Just nominate someone in your organization to act as a publicity officer.

VISITORS

Cont. from page 1.

gram is to improve the quality of guidance offered by high schools to vocationally-oriented students.

Williamsport Area Community College was picked to participate in the program since it has one of the most comprehensive programs of vocational education in the country. There will be a total of six programs offered. Those attending the first session were predominantly from Pennsylvania but did include some counselors from Maryland and Virginia.

Student Author

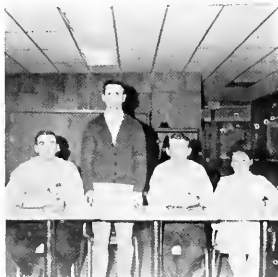

Art Kiernan of 678 Sixth Avenue, and a student at WACC is listed as the author of a lead article in the April, 1967 issue of AUTO RACING which is presently on the news stands.

Kiernan's article describes the action at Mexico's Grand Prix held in October, and won by John Surtees by a five second margin over Jack B. Rabham, 1966 leading Grand Prix winner.

During this year, Art plans to cover Grand Prix races in France, England, Germany, Italy, Canada, and Mexico for AUTO RACING.

Kiernan does run into trouble at WACC when assignments take him away from the campus, but so far he has been able to "keep his head above water."

Art who is also local radio station WLVC's news director plans to transfer from WACC to Penn State in the Fall as a Journalism major.

Student Government Officers: (From left to right) Larry Schiefen, Mike Minatelli, Bob Mislevy, and Janet O'Donnell.

M.E.C.A. Banquet

On January 16, 1967 at 8:00 P.M. the Mechanical Engineering Club Associated, (M.E.C.A.), held a banquet at Howard Johnson's in honor of the graduating members of the club.

After the meal, the President, Al Schubert, gave a farewell speech, followed by a short speech from each of the graduating members and the instructors present Mr. Van Horn and Mr. Welliver.

The drawing for the 30-30 Winchester rifle was held. The winner, Mr. C. A. Brooke, is an instructor of math and physics at the college.

For the future the club has planned such activities as field trips, banquets, guest speakers, and other projects relating to the engineering field. In the month of February, the club's guest speaker was Walter Williams, co-owner of Green Pine Dragway. He talked about the new NHRA rules for 1967. During March the club is organizing a lubrication special in cooperation with a local business dealer.

Coach Burdett

The coach of any team must be an ambitious organizer, co-ordinator, and enthusiast. WACC's basketball coach, Bill Burdett, surely fulfills these qualifications. Born in New Bethlehem, Pa., he went to Porter Township High School. Mr. Burdett was active in sports such as basketball, football, track, and baseball. His undergraduate study was completed at Lock Haven State College, followed by his Master's Degree at Bucknell.

Mr. Burdett feels that our team has had a very successful season. The Wildcats finished their first season with a 13-5 record. Five of our players will graduate this June: John Bonislawski, Bill Collins, Wayne Miller, Joe Opetosky, and Scott Taylor. The players remaining to start our next season are: Dan Cumberledge, Ron Hobbs, Ray Kimberly, Larry Miller, and John Wooster. Hobbs and Kimberly will graduate next February. Mr. Burdett gives much credit to his boys. He says, "Our boys have had many late practices, have worked hard, and deserve each of their eleven victories."

We are constantly scouting for good players. Mr. Burdett is currently recruiting high school players, especially those in the district. At present he has lined up some boys, but we need more so if you can dribble that basketball get out there and help make your team a success.

We have arrangements with four year colleges for WACC players and are presently engaged in qualifying for the National Junior College Athletics Association (N.J.C.A.A.).

Mr. Burdett is doing a great job, so everyone get out there and give him and his players a pat on the back.

New Change

We have something not too many other colleges have. The body shop has started changing the colors of the community college's vehicles from green and white to maroon and gold. The first of the vehicles to have this change is a '45 Dodge pick-up truck. The body shop is now in the process of fixing up a '62 GMC panel truck for a new paint job.

There is only one stumbling block to our beautifying project—Johnny Robinson. He couldn't have his painted first so now he just wants to be different by keeping his green and white.

THINK BIG!

Figures released by the U. S. Office of Education show that WACC's enrollment is larger than that of half the colleges in the U. S.

SPOTLIGHT on STUDENTS

Bells are ringing. Mr. Crawford of the Practical Nursing Dept. has become engaged to Marilyn Pardoe from Lewisburg. Miss Carol Ann Ritter, a graduate of the college in practical nursing, is engaged to J. Michael Aldenier. Frank Mallin, another graduate of the college plans to marry Jo Ann Carlin of South Williamsport. David Hamn, another of WACC's graduates is engaged to Yvonne Kettler of Williamsport.

Three WACC students have been named for certificates of merit in Time magazine's annual current affairs test. William Stillwell has been named the local winner. He is a liberal arts freshman in the education curriculum. Others scoring high from WACC were Miss Patti Ahnwood, and Richard Bostic.

Sports

WACC opened its first season of basketball at DuBois with a 90-57 win. This win was not as impressive as the score indicates because DuBois played the game without three of their starting players, who had been injured in an automobile accident six days before the game.

The home debut was disastrous. A very good crowd welcomed the Wildcats. Though everyone tried extra hard to beat the Bloomsburg Frosh, nothing went right as WACC came out on the short end of a 70-43 verdict. High scorer for WACC was Bob Carpenter with 10.

Coach Burdett's crew hit the road again and came home with a winning record. Keystone provided the toughest opposition encountered so far. After a nip and tuck battle, Bill Collins converted on a three point play and Joe Opetosky hit a field goal for an 85-83 win. Joe and Bill combined for 42 of the 85 points. Back home the Wildcats defeated the Williamsport School of Commerce 73-60 taking a 3-1 record home for the Christmas vacation.

Christmas was good to everyone, especially the Basketball team. They all came back to school fatter, slower, and generally worse off than when the season began. Corning Community College thanked them for this by using WACC to

Cont. on page 4

SUPPORT YOUR
SPRING WEEKEND

Cont. from page 3

improve their record. They beat the team 75-61. The only bright spot was the fact that it was an away game and few, if any, home fans witnessed it. Scott Taylor was the only Wildcat in double figures as he hit for 14.

WACC, upon coming home, started a string of four wins with an 87-79 repeat victory over Keystone Jr. College. High man was Wayne Miller with 17 followed by Scott Taylor at 15, Collins at 14, Hobbs and Carpenter at 11.

Playing its finest game to date, the Wildcats defeated the Lycoming Freshman 89-61. Bill Collins

The second half started the same way, but after about five minutes, Ron Hobbs and Wayne Miller gained control of the boards. With this board control, WACC's fast break became effective. The Wildcats ran off 17 straight points. About the time WACC looked like they would run away with the game, Devich and Clapper got hot for Altoona as they closed the gap to the final margin of four points. All five starters hit in double figures with Ron Hobbs leading the way with 25 followed closely by Joe Opetosky with 20 and Bill Collins with 19. Also in double figures was Wayne Miller and and Scott Taylor, each with 13.

High scorer for WACC was Larry Miller with 18 followed by Wayne Miller at 15, and Dan Cumberledge and John Bonislowski with 10 each.

WACC opened its next to the last week of the season by rolling to a 98-65 repeat victory over the Williamsport School Of Commerce. Playing on the unfamiliar and small court at the YMCA, the Wildcats defence sagged early and WACC found themselves down by as many as 11 points. This "scare" ignited the Wildcats and they caught Commerce at 31-31 taking the lead at 35-33. With the defence tightened up, the offence exploded, and WACC went on a 14-2 spurt to take a half-time lead of 49-35.

The second half was all the Wildcats as six players hit in double figures. Bill Collins, Scott Taylor, and Joe Opetosky bombed away from outside with 22, 17, and 11 points respectively. Taking nifty passes from the outside men and controlling the boards, big Wayne Miller, Ron Hobbs, and John Bonislowski drove Commerce crazy from the inside with 21, 11, and 10 points respectively.

Trouble started Wednesday, Feb. 15, in the form of the Mansfield Freshman. The runaway Wildcat offence stalled and the defence became porous as the Little Mountaineers avenged an earlier defeat with a convincing victory. The opening play was indicative of what was to come. WACC got the tap and could not score in six tries. Thus began a nightmare which found the Wildcats hitting on less than 25% from the field and converting a very poor 4-13 from the foul line.

Sat., Feb. 18 was only a slight improvement over the Mansfield game. Hitting a poor 30% from the field, the Burdettmen dropped the 85-72 decision to the Penn State Center Campus at Altoona. This marked the first time WACC has lost twice in a row and brings the season record to 11-5.

Collins shoots for two.

WACC was handicapped by the loss of Wayne Miller for much of the game. Wayne drew his fourth personal foul with less than 10 minutes of first half played and

and had to be used sparingly the rest of the game. Altoona wisely took advantage of this situation by using a full court press to take a 39-35 lead at half-time.

WACC pulled within 2 points once and four points three times late in the game but could not come up with the key play or key basket needed.

Scott Taylor, offensively consistent all year, exploded for 20 points and numerous rebounds to help keep the game close. Following him in double figures were Ron Hobbs and Bill Collins with 13, and Joe Opetosky with 11.

With only 2 games remaining and an 11-5 record, the Cagers are assured of a winning season in their first season ever. By the time this issue is out the season will be over and this corner would like to thank the administration, on behalf of the team, for putting forth the effort to have a team and to get such outstanding men to set up and run this program.

The cagers of Bill Burdette closed out the home portion of their season Wed. Feb. 22 by romping to a 93-54 win over the Lock Haven JV's. A good crowd saw WACC top the 90 point for the sixth time this year.

The Wildcats controlled the ball game from the very start as they scored in the opening tap play. A tight hustling zone was destructive to the Baby Bald Eagles offensive game. WACC got a few steals and a good fast break out of this defence to take an early 14-2 lead which was increased to 47-25 at the half.

During the second half, the fans got an opportunity to see the possibilities for next year as Coach Burdette employed the five returnees: Ron Hobbs, Larry Miller, Ray Kimberley, Dan Cumberledge, and John Wooster. Playing about 10 minutes of the second half, they battled Lock Haven to a standstill, maintaining the 20-30 point lead. The five boys playing their last home game for WACC, Wayne Miller, Bill Collins, Scott Taylor, Joe Opetosky, and John Bonislowski played the final four minutes of the game.

All but Bonislowski scored in double figures with Wayne Miller showing the way with 20 points followed by Bill Collins with 16 points and some fine assists, Scott Taylor with 14 points and numerous rebounds, and Joe Opetosky with 11 points and a fine job as the floor "general" directing the offence. Also in double figures was Ron Hobbs with 11, and for the first time this year, everyone who played scored.

In addition to the runaway offense and outstanding rebound performance led by Miller, the defence held Lock Haven's Deter to four points, 20 less than he scored against them before.

STATISTICS FOR FIRST NINE GAMES

Name	Games	FG	FT	FM	TP	PPG	FP	HSG
Bonislowski	9	16	17	12	44	4.9	.705	8

PPG-points per game FP-foul percentage HSG-high single game

led all scores with 22 followed by Hobbs with 15, Taylor with 14, Carpenter with 12, and Wayne Miller with 10.

The last two victories of this four game streak were Mansfield at 90-72 and Lock Haven at 87-59.

The first half statistics show Bill Collins leading the scores with 140 points, for a per game average of 15.5. Three other players with double figure averages are Ron Hobbs 12.4, Wayne Miller 11.1, and Scott Taylor 10.7. The high single game score for the team was 90 points against Dubois. Bill Collins' 27 points against Keystone was the high score for a player in the first half. The only other player to break the 20 point barrier was Ron Hobbs with 22 points against Lock Haven.

The Wildcats returned to their home court for three games the week of February 2 and came up with three big wins. Coming off their third loss of the year at Johnstown, WACC averaged 95 points per game for the week to bring their record to 10-3.

Perhaps the most exciting game of the year was when the Wildcats downed Penn State's Altoona campus 96-92. It marked the only time this year that we were behind at half-time only to come back and win. The first half was a scoring battle between Altoona's Devich and our own Joe Opetosky. WACC left the floor at half-time behind by 5.

Thursday, Feb. 9 was a day of revenge for the cagers of Coach Burdette. Corning Community College, the only team to beat WACC thus far that we would meet again, invaded the home of the Wildcats. The cats were up for this one and the result was a record setting 101-64 win. From the start there was no doubt about the outcome. The only question seemed to be how high the score would go. Coach Burdette employed the second string for much of the second half and they came off the bench very strong. With 4.07 showing on the clock, WACC had 96 points, at this time Corning froze the ball to try to keep the Wildcats from hitting the century mark. WACC didn't break 100 until Dan Cumberledge's long one-hander hit with 37 seconds left to give the Wildcats the school record of 101 points.

Saturday, Feb. 11, the Wildcats entertained the Penn State Center Campus at Dubois. WACC had defeated Dubois in the first game of the season 90-57 and Dubois came to town revenge-minded. The starting five could not score effectively. After about eight minutes, the score was 9-7 in favor of WACC. At this point Coach Burdette replaced the starters with the second string. Led by Larry Miller, the shock troopers ran off 20 straight points to break the game open. The first five got a much needed rest as the rest of the game was played by the second team.

THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

May 3, 1967

Direct From The President

A number of school districts in the past weeks have made decisions either for or against becoming sponsors of our college.

New sponsors are Mansfield-Blossburg, Mifflinburg, and Warrior Run Area School Districts. Deciding against sponsorship at present were Loyalsock, South Williamsport, Muncy, Lewisburg, and Northern Tioga Districts. Montgomery school directors have not indicated a decision.

The college has asked for a decision one way or the other from the school districts within Lycoming County who had not previously been sponsors, and from certain other districts. These latter districts were ones reorganized by law, which were made up of smaller districts, some of which had been sponsors.

A decision was necessary for completion of the colleges long range planning in April.

The tuition cost of \$300 to a student from a sponsoring district, though up \$40 next year, is still one of the lowest in the state.

In previous years, capital costs (equipment and land costs) have been shared according to the number of students per district. But the State Board of Education recently ruled that WACC's capital costs must be paid according to market value.

There are a number of additional districts which have indicated interest in joining—Lock Haven, Mill Hall, Canton, Caledonia, and Selinsgrove Area Schools.

Students from the sponsoring districts have priority of admission to the college. Second chance is given to the students from districts of the other eleven community colleges if we have a course that their community college does not offer. Their college pays part of the cost. Third chance goes to students from non-sponsoring districts, and fourth priority to out-of-state students.

Opportunity For College Men

The Circle K received their charter on April 6 at a banquet in the Lyeomng Hotel Ballroom. All Circle K members from the college were present along with important local Kiwanians. Mike Eck, Circle K President, accepted the charter from James Hallman, District Treasurer, while the gavel and banner were accepted by Gary Francis and Tom Zimmerman respectfully. Art Westphal introduced new members - Dave Bamberger, Nick Godum, John Litterer, and Dennis Shattock.

Installation of new officers was conducted. President is Mike Eck, Vice-President Gary Francis, Secretary Art Westphal, and Treasurer Tom Zimmerman. Faculty advisor is Harvey Kuhns.

The Circle K is not a social fraternity; it is a service organization for college men operating on campus and is similar to Kiwanis and other service clubs. Circle K is an opportunity for college men because it provides means for learning the same kind of leadership in a college community which one needs in business.

The membership of the club consists of male students of character and scholastic standing who are officially enrolled in the college. There are the only qualifications for membership in the Circle K Club.

After service in the armed forces, a lad is ready for marriage. He has learned to wash and dry dishes, take care of his laundry, make his bed, scrub the floors, and never volunteer.

Vote On Budget

On May 1 a convention of school board of nine districts, made up of eighty-one members, to approve the college budget for will approve the college budget for

The Board of Trustees has already approved it, and the convention is expected to.

Soon six new members will be elected to the Board of Trustees, fifteen members are now serving alternate terms, then every two years five are either reelected or new ones are elected.

Dinner Party Develops Into Plant Tour

Three foreign students, one from Ethiopia, and two Malawians were guests at the home of Mr. and Mrs. Russell Kidd on Easter Sunday.

Mr. Kidd works in the Lycoming Aircraft Company and so the students requested a tour of the company.

On Tuesday, March 28, a few more students decided to join the group, which made a total of six students. The tour was interesting, and educational.

To The Administration:

Sirs: Among the many problems faced by our college, both administrative and student, it seems as though the Liberal Arts students have a few that are unique to their plight alone.

First, there is parking; the parking facilities and arrangements set-up by the administration are a complete farce. All our parking stickers do is allow us to park some-

where on Third St. between Newberry and Montoursville, which we could do anyhow. The Applied Arts Dept. usually can find ample parking because they arrive early in the morning. When a Liberal Arts Student arrives late in the morning or early in the afternoon, the lot is filled with the cars of Applied Arts students and many high school students. If we park in the high school lot, the charming W.A.S. administration quickly complains; then let's keep our lot for WACC students only, and not high school students.

Once we do have the lot it may be a good idea to have our administration park there for one week. Then after they buy new shock absorbers and tires, they may decide to have the lot (holes, mud) surfaced.

The Liberal Arts students also have another problem. During the evening, when most classes are held, students may have one or two hours between classes. For a while we could go to empty rooms on the second and third floor wings to study and/or talk. Lately these rooms have been locked and the students have reverted to the high school auditorium. On several occasions, a janitor from the high school has chased the WACC students from the auditorium. This leaves us with the hall to stand in or a walk to the library or "rec" center which takes twenty minutes to half an hour off our hour. Surely, better arrangements can be made between WACC and the high school.

This past weekend also afforded certain people the opportunity to "demonstrate" against U.S. policy in Viet Nam. I believe in the war; Communism must be stopped somewhere, but this is really irrelevant. We are committed; we are fighting; we can't back out. No matter what the situation, these "peace marches", headed and supported by a pseudo-intellectual group of cowards, are extremely poor "Americanism". I am no big, brave hero but there were others before me and there will be others after me, so who am I to complain. If I were a soldier sitting in two inches of mud in a rice paddy praying just to stay alive, I would include in my prayer a request to meet these "peace march-

SPRING WEEKEND

Fourteen girls have been chosen as candidates for Spring Weekend Queen. These candidates were chosen for their outstanding beauty, personality, character, and charming grace.

Pat Harris is also in the Practical Nursing Dept. Pat has black hair and brown eyes. This girl from Wellsboro, who is treasurer of the Practical Class, who works as a receptionist at the Lycoming Motel.

Pat Keiser is a sparkling brunette of the Practical Nursing Department. Pat, who is representing the Aviation Department, enjoys cooking and working with people which can be seen in her choice of a career.

Ginny Russell is also a Liberal Arts student. She is five feet two inches tall, with shoulder length brown hair accentuating her brown eyes. Ginny cheered the WACC Wildcats to victory at many of their home games. Miss Russell is now in her second year at WACC.

Bonnie Badger of the Liberal Arts Dept., is representing Circle K club as their Queen candidate. Bonnie's light brown hair sets off her dark brown eyes. Bonnie is very popular among her classmates, as are all other candidates for Queen of Spring Weekend. Miss Badger enjoys swimming and most other athletics.

Billie Phillips is a friendly little blonde representing Computer Science. This vivacious Queen candidate has many varied interests which include swimming, cooking, and sewing.

Barb Reed, another beauty from Canton, will graduate from WACC this year as a Surgical Technician. Barb has long red hair, but is mild tempered. Barb's pastimes are dancing, swimming, and star gazing.

Marian Stoddart, who is representing the Business Department, hails from nearby Lock Haven. This pretty blonde enjoys dancing and swimming.

Pam Bollinger, a lively blond with blue eyes, is a student in WACC's Practical Nursing Dept. Pam comes to the college from Mifflinburg. Miss Bollinger is five foot three inches of beauty.

Mary Madigans, a freshman at WACC, comes from Canton country. A pretty brown-eyed lass, Mary is interested in all sports and is an active member of the Spring Weekend Committee.

Sharon Salvatori, a student of the Liberal Arts Dept., is five feet eight inches tall, has green eyes and blond hair. She is very active in Student Government and other student works. Sharon enjoys swimming and a 11 other summer activities.

PHOTOGRAPHY

Ron Kuzmovich, Tom Weigand

The SPOTLIGHT is published by and for the students of the Williamsport Area Community College, 1005 West Third Street, Williamsport, Pennsylvania. The office is located at the rear of Unit 6, telephone 326-3761, Ext. 221. Letters to the editor must be signed, with names withheld at request.

**THIS PAPER PRINTED BY THE W.A.C.C.
GRAPHIC ARTS DEPARTMENT**

Marcia Arthur is the representative of the International Relations Club for Spring Weekend Queen. Marcia is our most attractive foreign student from Barbados in the West Indies. Marcia, who is in the Liberal Arts curriculum, enjoys all sports and meeting people.

Laurie Heffelfinger also comes from the Practical Nursing Dept. Laurie's lovely figure stands at five foot five inches tall and is topped by her dark hair. Laurie comes to WACC from Milton, Pa. Miss Heffelfinger enjoys jazz, ballet, horseback riding, and swimming.

The Business Department is lucky in that they have two beautiful blondes in their midst. Ann Piastak is from Business, but is representing the Outdoor Club. Ann, who calls Danville her home, enjoys swimming, dancing, music, and art.

Hours For Rec Center

Monday 3:00 P.M. to 10:00 P.M.
Tuesday 3:00 P.M. to 10:00 P.M.
Wed. 3:00 P.M. to 10:00 P.M.
Thursday 3:00 P.M. to 10:00 P.M.
Friday 6:00 P.M. to 10:00 P.M.

Alice Murphy hails to us from Forest City, Pa. A typical blond lass, Alice is five foot two inches tall. She enjoys swimming and "hooping" it up on the basketball courts. Alice is both a good cook and active in student activities such as the College Disciplinary Board.

Aggie Knittle is a second year student in the Liberal Arts Dept., who is very active in Student Government and other collegiate activities. Aggie likes sewing, swimming, and basketball. Her future plans are to attend Eastern Baptist College at St. Davids Pa.

MECA In Action

On March 14th the Goodyear Tire Center, in downtown Williamsport, was the sight of the MECA lubrication job. It proved to be a challenging project as forty-four cars were greased and safety checked in a period of five hours. Following the lube job, the Williamsport Sportscar Club showed films of last years Daytona 500 Race and the race at Riverside.

A banquet for the near future is being planned. Guest speaker will be Mr. Frank Ewashko from the Goodyear Tire Center. The topic of the evening will be "Tire Design". At this banquet nominations for new officers for the semester will be held.

Archie's Hot Dogs

Where's that aroma coming from? What is it? It smells like hot dogs. Great! Who's selling them? The Architectural Club—who else! Rain or shine, Archie always pulls through.

These will be the sounds on May 3, when the Architectural Club will sponsor a Hot Dog Roast from 10'til they're all sold out.

Highlights Of Spring Weekend

A great folk-rock group—The Pozo-Secco Singers—will be the opening highlight to Spring Weekend '67. The threesome have successfully recorded such hits as "Time", "I'll Be Gone", "Come A Little Bit Closer", and have a great recording of "You've Lost That Loving Feeling".

After listening to the Pozo-Secco Singers in concert, Prince Charles and The Royal Tones will play for two hours. You can see that there will be a variety of entertainment, that there will be a variety of entertainment.

Saturday afternoon will be a carnival of events with activities such as a greased pole climb, tug of war, and a pie eating contest. Cash prizes will be awarded.

"Apple Blossom Time" will be the theme for the semi-formal Saturday night at which time the Queen finalists' hearts will be fluttering. The climax to the evening will come when Sharon Pickering, last year's Spring Weekend Queen, will crown her successor.

As it's first service to the school, Circle K will sponsor an all night party at Lycoming Twp. Firehall with informal dress as it will be a "sock hop". Refreshments will be served.

Sunday morning the Circle K is also sponsoring a Chapel Service for all students and faculty.

The traditional "ox roast" will fill Sunday afternoon with food, games, sports, and more food. This ends a perfect weekend!

They Care

Have you any ideas how much time will be spent between now and May 20 in preparation for the Spring Weekend? Allow us to enlighten you a mite on the matter. There will be someone, somewhere, somehow at every given moment of every day devoting some of his precious time, so that you may enjoy yourself during that fun filled weekend.

Who is that someone you say? That someone could be any member of the Student Government Spring Weekend Committee who cares enough to put himself out a little bit. For many of us this will be our last class function before we graduate on June 10, and we would like to see that it is a big success.

Let's get out and give a hand if we can. In every organization a little outside help is appreciated. Get out of that old jalopy for one night between now and May 20, and say to yourself -- Hey I'm going to help these people because they care. They care whether or not I have a good time at Spring Week-

end. They care whether or not I have enough to keep me busy. They care enough to go out of their way to have things going on that I will like to do.

In short - I'm going to help those who care because down deep I care too. You'll never hate yourself for lending a helping hand. See your Student Government representative today and see what you can do to help.

The Memories Are The Thanks

You've read quite a few articles in the SPOTLIGHT cutting you up as college students. Maybe you're due for a little praise. Did you tell someone on the Fall Weekend Committee thanks, or say "Sure I'm coming" to Spring Weekend, or smile at a classmate. If you did WACC's glad to have you.

We do not expect you to edit the newspaper, plan Spring Weekend, or be President of Student Government. Do you one little job with a smile, and you'll know what a small thanks can mean.

Bob Hope has a theme song—"Thanks For The Memories", but in this case "the memories are the thanks".

For The Girls

We have a new addition to the Administration. Mrs. Lucille Cohen is acting as Assistant Registrar and as an advisor to female students. Mrs. Cohen graduated from Wellsley College and is a wife and mother of two sons. One son is a freshman at Hamilton College, while the other will be a sophomore in high school.

The girls had a tea on April 30 at four o'clock in honor of Mrs. Cohen. Mrs. Cohen is looking forward to meeting the girls and with her sparkling personality, she is sure to make a great impression.

Gamma Epsilon

We have a fraternity. Gamma Epsilon Tau's name stands for the science or knowledge of the art and craft of the letters. Establishing an honor society among young people who are willing to work toward the support and advancement of the Graphic Arts, is the society's objective. These objectives are rated as "stout ideals truly linking collegiate level education to the graphic graphic arts".

Candidates must be of good moral character with sincerity of purpose and willingness to work in chapter affairs. All chapters operate with considerable autonomy.

The Gamma Epsilon Tau fraternity wants to serve their school. Their first service will be to take pictures of couples at the Spring Weekend Semi-formal.

Editorial:

The following letter was found upon our desk yesterday. It is not necessarily the views of the staff, but any comments will be accepted. Dear Friends,

We have the distinguished honor of being members of the committee to raise \$5 million to be used for placing a statue of Lyndon B. Johnson in the Hall of Fame, Washington D.C.

The Committee was in a quandary about selecting the proper location for the statue. It was

thought not wise to place it beside that of George Washington who never told a lie, or beside that of FDR who never told the truth, since LBJ could never tell the difference.

After careful consideration, we decided that it should be placed beside the statue of Christopher Columbus, in that he started not knowing where he was going, and on arriving did not know where he was, and in returning did not know where he had been, and did it all on borrowed money.

Five thousand years ago, Moses said to the children of Israel,

"Pick up your shovels, mount your camels, and I will lead you to the Promised Land."

Nearly five thousand years later, Roosevelt said, "Lay down your shovels, light up a camel, this is the Promised Land."

Now Johnson is stealing our shovels, raising the price of Camels, and taking over the Promised Land.

If you are one of those citizens who had money left after taxes, we shall expect a generous contribution for you for this worthwhile project.

Very truly yours
I.M. Shirtless

IN THE SCHOOL I USED TO GO TO
I GOT "AS" IN ALL MY TESTS.....

AND ALL THE KIDS WOULD ASK
ME, "HOW DO YOU GET SUCH
GOOD GRADES, JOEY?" ...

AND I TOLD THEM,
"I STUDY."

①

②

③

THEN THEY WOULDN'T PLAY
WITH ME. THEY CALLED
ME "THE BRAIN."

EVEN MY FATHER YELLED AT ME.
"WHY CAN'T YOU BE NORMAL,
BOY!"

SO WE LEFT TOWN IN SHAME.

④

⑤

⑥

I GET "AS" IN THE NEW SCHOOL,
TOO...

AND ALL THE KIDS STILL SAY,
"HOW DO YOU GET THOSE GRADES,
JOEY?"

BUT NOW I SAY, "I CHEATED!"

Spotlight On You

Wedding bells are chiming. Congratulations to Dave Keiser who is engaged to Miss Angela Genua. Also our congratulations out to Willard Jones who plans to marry Miss Marilyn Jane Doehler. Many happy returns to Ralph Trafford who on April 8th married Miss Barbara Louise Waugh. Congratulations to one of our present students, Barry Koclsch upon his engagement to Miss Carol Savits. Another of our student, Ron Slen-

Wrestling Intramurals

There were 33 participants in the intramural wrestling tournament on April 17 and 18 in the WHS gym. The tournament was divided into seven weight classes and the official for all bouts was Mr. Dale Sullivan.

Results:

125lb. class- Ron Bowman defeated Terry Fisher 6-4

135lb. class- Ron Kanaskie defeated Nick Evancho 5-2.

142lb. class- Greg Kerstetter defeated Dave Bingaman, fall 47 sec. 2nd per.

155lb. class- Lawton Heiser defeated Doug Dickey, fall 23 sec. overtime

165lb. class- Dennis Calehuff defeated James Noll, fall 1:14 sec. 1st per.

172lb. class- Bill Swartzlander defeated Dan Kolly 5-0

Unlimited class- William Snyder defeated John Shadle 3-1 overtime

Four Canoes Wiped Out

On Sunday April 9th the W.A. C.C. Outing Club sponsored a canoeing trip on Pine Creek, through the Pennsylvania Grand Canyon. The event, the first of many trips organized by the Outing Club, was highlighted by the wipeouts of 4 canoes including the team of Mr. Brooke and Mr. Davis of the math department. Thanks to quick action and lifejackets worn by each team, no one was injured, just cold and wet.

The members of the expedition were, advisors - Mr. Paul McQuay, Mr. Roger Davis, and Mr. Charles Brooke, students - Jeff Rauch, John Sorenson, Ron Liner, Jim Noll, Al Boyer, Dick Farber, Paul Dolges, Bob Bech, Bob Odell, Ken Frisbie, Bill Adamson, Larry Hurd, Chuck Pituch, Gary Goentz, and Tom O'Neill. Three guests who went along for the ride were Mr. Art Davis, Mr. Bill Reighard, and a three month old German Shepard named Sam.

In recent elections held by the club the following officers were elected - John Sorenson, president, Mike Feller, secretary, Dave Schoening, corresponding secretary, and Gary Goentz, treasurer.

Coming events for the Outing Club include an invitational shooting match, a sailing voyage on the Atlantic Ocean, a fishing trip to the Delaware River, and movies and lectures presented by some of the foremost men in this area on hunting, fishing, and outdoor living.

Submitted by John R. Sorenson

Vol. 2, No. 7

THE WILLIAMSPORT AREA COMMUNITY COLLEGE, WILLIAMSPORT, PENNSYLVANIA

May 31, 1967

Graduation June 10

Commencement exercises for 604 WACC students will take place Saturday, June 10, at 2:00 p.m. in the W.H.S. with Robert G. Bartlett, Pennsylvania Highway Department Secretary speaking on "Success: A Journey, Not a Destination."

The highlight of the program will be the graduation of the first Liberal Arts and Sciences students, 26 in number. Some 256 will receive Associate Degrees in Applied Science and 322 certificates will be awarded.

Election Day W.A.C.C.

After two weeks of heavy campaigning, the candidates for Student Government took a brief rest while the student body cast their votes. At seven o'clock the polls in Unit 6 were closed. A few hours later the new members of the Student Government for the fall semester were disclosed. The results of the voting are as follows:

President - Dennis Shattuck
Vice President - Larry Miller
Secretary - Norma McLaughlin
Treasurer - Pam Mackowiak
Let's support our new Student Government!

Circle "K" Club members Tom Zimmerman, Nicholas Goduni II, Gary Francis, David Bamberger, Mike Eck and faculty adviser Harvey Kulins watch as Jeff Zemla presents a ceremonial American flag to President Carl honoring Lycoming County's first casualty in Viet Nam, Marine Lance Corporal Dennis Eaker.

Circle "K" Honors War Dead

WACC's Circle K Club honored Lycoming County's first service man to give his life in Viet Nam at a school-wide student-faculty convocation May 4. The Club's memorial, a U.S. flag to be used at college functions, was given in honor of Lance Corporal Dennis Eaker, a Marine, who lost his life on September 17, 1966. Corporal Eaker, who lived at 2636 Euclid Avenue Duboisstown, is the brother of WACC student Charles Eaker of the Sign Shop.

Help Wanted

The College has issued an urgent call for volunteers to help with a series of moves in early June. Computer Science and Business Ed. will move to the Rishel Building. Sheet Metal and Civil Tech will move to the Clusters Building. New partitions will be erected upstairs in Unit 6 for administrative offices. If you can spare a day or two, see John Robinson or your adviser.

Hilsher Faculty Prexy

Jay Hilsher is the new president of the WACC Educational Association succeeding Joe Sick. George Krause is first v.p. and Tom Vargo got second v.p. Don Bergerstock and Harry Crain remain as secretary and treasurer.

WACC Students In

The college was informed last month that 17 students in the Liberal Arts curriculum have been elected to the Who's Who in American Junior Colleges, 1966-1967 issue.

The nominating committee at the college was requested to consider the students scholarship, leadership, participation in educational and extra-curricular activities, his general citizenship and his promise of future usefulness to the community. The 17 students listed below have met these qualifications.

Thomas L. Bender
South Williamsport, Pa.
Connie Brown
Jersey Shore, Pa.
M. Jane Cervinsky

The staff of the SPOTLIGHT would like to extend their most sincere congratulations to those who were elected to this honor.

On Our Editor

The SPOTLIGHT staff was very sorry to hear that their editor, Tom Bender would probably not be back the rest of the year. due to a serious illness. We would like to thank Tom for his great leadership throughout this SPOTLIGHT year, and say that we hope he makes a fast recovery.

editorial

TO THE ADMINISTRATION Sirs:

Among the many problems faced by our college, both administrative and student, it seems as though the Liberal Arts students have a few that are unique to their plight alone.

First, there is parking; the parking facilities and arrangements set-up by the administration are a complete farce. All our parking stickers do is allow us to park somewhere on Third St. between Newberry and Montoursville, which we could do anyhow. The Applied Arts Dept. usually can find ample parking because they arrive early in the morning. When a Liberal Arts Student arrives late in the morning or early in the afternoon, the lot is filled with the cars of Applied Arts students and many high school students. If we park in the high school lot, the charming W.I.S. administration quickly complains; then let's keep our lot for WACC students only, and not high school students.

Once we do have the lot it may be a good idea to have our administration park there for one week. Then after they buy new shock absorbers and tires, they may decide to have the lot (holes, mud) surfaced.

The Liberal Arts students also have another problem. During the evening, when most classes are held, students may have one or two hours between classes. For a while we could go to empty rooms on the second and third floor wings to study and/or talk. Lately these rooms have been locked and the students have reverted to the high school auditorium. On several occasions, a janitor from the high school has chased the WACC students from the auditorium. This leaves us with the hall to stand in or a walk to the library or "rec" center which takes twenty minutes to half an hour off our hour. Surely, better arrangements can be made between WACC and the high school.

This past weekend also afforded certain people the opportunity to "demonstrate" against U.S. policy in Viet Nam. I believe in the war; Communism must be stopped somewhere, but this is really irrelevant. We are committed; we are fighting; we can't back out. No matter what the situation, these "peace marches", headed and supported by a pseudo-intellectual group of cowards, are extremely poor "Americanism". I am not a big, brave hero but there

were others before me and there will be others after me, so who am I to complain. If I were a soldier sitting in two inches of mud in a rice paddy praying just to stay alive, I would include in my prayer a request to meet these "peace marchers", because I would love to thrash them. Think about it.

I was extremely disappointed that WACC had participants in this march and I hope they somehow realize that their recognition in academic circles is not dependent upon this type of political philosophy.

This pseudointellectual movement is entirely ridiculous. If these people want to protest things, they should show more realistic intelligence if they did not include the Viet Nam war in these subjects of protest.

Kent Seitzinger

I applaud those involved in the publication of last (May 3rd) issue of the SPOTLIGHT. I was pleased to see that people are beginning to realize that the paper can be and should be a medium to express discontent with existing situations.

I refer specifically to Mr. Seitzinger's letter, which is republished in this issue. I talked to Mr. Seitzinger after the original publication of his letter expressing my appreciation for his stand, and his reply was that he felt that people should speak out against circumstances with which they do not agree. It is on this attitude of Mr. Seitzinger that I would like to comment.

Mr. Seitzinger fails to realize that the same attitude he possesses is the one that he has condemned in his letter. He fails to realize that there is a strange incongruity in a letter which begins with an attack on status quo, on those who are responsible for that status quo, and upon what is being done (or not done) to remedy what he feels to be ills within the existing structure, and a letter which ends with an attack on people, much like himself, whether he wants to admit it or not, who are also dissatisfied with certain situations and who attempt to do what they feel is right to alleviate the problem.

I do not want to become involved in any debate over which side is right--if there is a right side. There are valid arguments on each side that all can read in any magazine today. Besides Mr. Seitzinger has dusted off all the old cliché for the "pros", and I need not do the same for the "cons".

The purpose in my reply is simply to point out to Mr. Seitzinger that there is much more involved in "Americanism" than

waving flags, as he should have learned from his discussions of Henry David Thoreau, and that the reason that the "pseudo-intellectual coward" marches is exactly the same reason that Mr. Seitzinger is upset over the marches--they both care about the soldiers in Viet Nam--they simply have different solutions to the problem.

Lastly, it is one thing to debate those solutions, but it is another thing to lower oneself to name calling without really understanding the motivations involved. I am glad that Mr. Seitzinger signed his name because at least I know what type to stay away from as I do not want to be "thrashed".

Henry Moonschein

Rebuttal

As a student at the Williamsport Area Community College, I would like to commend Mr. Moonschein on his answer to Mr. Seitzinger's letter, because I am glad someone is concerned, and I believe that I speak for many.

The purpose of my letter is to show Mr. Moonschein that I believe he hanged himself, when he wrote that "he did not want to become involved in any debate over which side is right--if there is a right side". That there may be more involved in Americanism than flag waving and peace marchers, implies to me that he has taken a side. The implication that flag-waving peace marchers could possibly be of any help to those American soldiers dying in Viet Nam suggests that Mr. Moonschein feels that there is depth in flag-waving. In other words, he is a pacifist; he actually has taken a side.

I am not condemning Mr. Moonschein for what he believes, but for his middle-of-the-road front. Mr. Moonschein, I will not be offended by your belief that flag-waving peace marchers may be able to shed some light on our involvement in Viet Nam, since I do not want you to be offended by my belief that peace marchers should be "thrashed" also.

Surely, I do want peace, but did America become a leader of nations through peace? Think about it: the American Revolution, World War I, World War II, Korean War, and I believe, War in Viet Nam.

These peace demonstrations, besides giving aid to the enemy, are significant in that they are a factor in upgrading the morale of the troops in Viet Nam. The troops invariably smile when they read of these misinformed demonstrations against what made this country what it is. We became a world power, not by showing our discontent or pacifist activities, but by being a world power backed by might. Truly, we are not a "nation of sheep" or "paper tigers". Name calling is a good idea because it is about time the finger is pointed at someone. These demonstrators are helping prolong the war by giving Ho Chi Minh the erroneous idea that this discontent will spread to others because of the headlines it has received in the newspapers. Surely, the demonstrators have the right to protest, since, this is indeed "Americanism". But American stands for freedom today in Viet Nam. Support our fighting men, not Ho Chi Minh!!

WHERE THE ACTION WAS

In The Beginning

Spring Weekend started off Friday night at eight thirty. The entertainment began when two striking gentlemen and one extremely attractive young lady, introduced as the Pozo Seco Singers performing in concert. The folk singing trio enchanted the students and attendants for two hours.

Following the Pozo Sico Singers a local band known as Prince Charles and the Royal Tones rocked the gymnasium for an additional two hours, which night-capped the evening as far as the school sponsored activities were concerned.

Marc Brumberg

It has been said that "all good things must come to an end" and so it was with Spring Weekend.

Teresa Phelps heads for Spring Weekend.

Saturday

The Saturday evening activities kicked off at 9:00 P.M. with the music of the Mike Alleceuei Orchestra. Some three hundred couples danced under the beautifully decorated ceiling and gymnasium. The entire evening was a great success.

After the formal, most students attended The Circle K's After Math with the Undertakers performing at the Old Locomotive Fire Hall. A queen for the evening was chosen by King Kali Muku (Jeff Zemla). She was presented with a \$15.00 gift certificate from Brozman's Clothing Store in Williamsport. A good time of dancing and eating broke up at 4:00 A. M.

A thank you must be extended to those members of the Circle K who sponsored the evening. A special thanks must also be extended to those members of the faculty who chaperoned the evening.

Sunday

Sunday, May 21, was the beginning of the end for Spring Weekend. The Circle K Club sponsored a chapel service which was held at the Y.W.C.A. at 10:30 A.M. Father Gray of the Divine Providence Hospital talked on the topic of Religion vs. Worldly Interests and Reverend Hanley of the Covenant Central Presbyterian Church spoke on the Good Samaritan.

After the church service, everyone went to Trout Pond Park for an Ox Roast. The scenic beauty of the Pennsylvania mountains added to the gaiety of the weekend. But, no matter where college students go, they are always hungry and the food committee did a fine job in providing the necessary ingredients. The menu was as follows: roast ox, potato salad, macaroni salad, baked beans, relishes, and soft drinks.

Later that evening the entire gymnasium rocked to the sounds of Prince Charles and The Royal Tones.

Dave Koch asks, "By the way, what is this?"

"In The Midnight Hour"

Hours put in to pay for Spring Weekend. (Russ Gerbino and Norma McLaughlin)

The village idiots take their first bath.

Saturday night crowned Virginia Russell queen of the ball. Ginny is a second year Liberal Arts student. In 1965 Ginny was Jersey Shore's representative to the Laurel Festival. Congratulations to a beautiful queen.

Would you believe this lead to Spring Weekend?

The Chief displays his \$20 appetite. Yeah, Chief!

Queen Ginny Russell smiles radiantly as she is crowned by Sharon Pickering, last year's Spring Weekend Queen. Ginny's court consisted of from left to right, Paul Bollinger, Ann Peistrak, Sharon Salvatori, and Aggie Knittle.

The Pozo Seco Singers kicking off Spring Weekend with their famous folk numbers.

Every person who is born an American citizen is entitled to life, liberty, and a share of the national debt.

Queen Ginny Russell and her escort, Denny Bullock, lead off Queen's dance.

By looking at the line, you would think the punch was spiked.

"I Left My Heart In San Francisco"

King Kali Muka (Jeff Zemla) makes the scene.

The king chooses a queen of the "Aftermath".

The Undertakers strike again.

A Class Reunion In The West

(left to right) Cris Wickenden, Danny McIntire, D. Russ Berg

Three WACC graduates are united at Port Hueneeme Seabee Construction Battalion Center Port Hueneeme, California located 60 miles north of Los Angeles. The three Seabees are classmates at WACC for two years and graduated in June 1966 as Heavy Equipment Technicians.

Dan joined the Seabees in June 1966. He took basic Petty Officer training at Davisville R. I. He was then transferred to the Pacific Fleet to Port Hueneeme Calif. where he took additional training. In October he joined Mobile Construction Battalion (MCB) in Viet Nam where he was equipment operator and security guard. In February Dan returned to Port Hueneeme with MCB-10 and is now in fleet training and will deploy again to Viet Nam in late summer.

D. Russ Berg EON2 joined the Seabees in August 1966. He took basic training in Davisville, R. I. and was also transferred to the Pacific Fleet to join MCB-3 in November. There he took further training and is now "A" Company Yoeman. MCB-3 is in military training now and it is rumored they will deploy to Viet Nam in May or June of 1967.

Chris Wickenden EONCN joined the Navy in October 1966. He took basic training at Great Lakes and was assigned to the Pacific Fleet MCB-10 in February. He is currently in Fleet Training.

CoEds Enjoy Kickapoo Joy Juice

At a recent tea, the Student Government Association welcomed Mrs. Joseph A. Cohen to the campus as our new Assistant Admissions Officer. Mrs. Cohen, who prefers her maiden name of Lucille, is shown at the tea table (yes, she's the classy-looking one at the left) with Laura Heffelfinger, Sharon Salvatori, and Janet O'Donnell. One of Mrs. Cohen's responsibilities will be to provide our growing coed population with a friendly, female welcome, especially in the critical periods before, during, and immediately after admission.

Circle "K" Plea W.A.C.C. Goes Peace Corps

The Circle K Club which sponsored the "Aftermath" during Spring Weekend has issued a call for recruits for next year. Mike Eck, prexy, says membership will be low after graduation and he is looking for recruits for next year to continue the club's "good citizen" activities.

Protest

Physical education classes have been scheduled for third semester women for the fall term at 9:00 Friday evening. It is the general consensus of the coeds that it is unnecessary to schedule classes at this time. Not only is this schedule an imposition, but it is also a handicap in that it will cause commuters and out-of-town students to miss their rides home. Certainly the schedule could be adjusted to eliminate this confusion.

W.A.C.C. Helps P.S.U.

It may sound a bit strange, but every once in a while mighty Penn State condescends to ask th Community College for help. This month Professors Fred Jones of Drafting Technology and Jack Deibert of Graphic Arts will assist the Vocational Education department at Penn State to set up summer workshops for vocational instructors from all over the state. Both WACC profs are veterans here, both highly respected in their professions.

James R. Redding of Gettysburg, who completed his Building Construction course here in January, will arrive in Gabon, West Africa, this month as one of 65 Peace Corpsman who will be engaged in a nationwide replacement of mud and wattle huts currently being used as schools in this new African republic, formerly a French colony. Redding has been given courses in French language and Gabonese history and culture to help him in his work.

Heiney Bows Out

David Heiney, director of Student Affairs, was honored with a plaque presented by SCA at Spring Weekend. Dave is off to a new job at The University of Delaware where he hopes to work toward his Doctorate.

Intramural Trophies

Trophies for the intramurals were discussed by the Student Government, and a motion was passed to present trophies to the wrestlers. However, after this, no trophies will be presented for intramural sports this year.

American is the only country where it takes more brains to make out the income tax return than it does to make the income.
